8th Floor, Tower-1, LIC - Jeevan Bharti Building, Connaught Place, New
Delhi-110001**

Table of Contents

S. No.	Content	Page Nos.
1	Project background	3-4
2	Information sheet	5-8
3	Environmental Clearance (EC) compliance status	9-22
4	Annexure 1 (Applicable statutory approvals/clearances obtained)	23-109
5	Annexure 2 (List of key activities carried out at IICC site during referred period)	110-128
6	Annexure 3 (Site infrastructure layout)	129-130
7	Annexure 4 (Environmental Clearance issued by MoEF & CC)	131-142
8	Annexure 5 (Proposed location plan / mapping of ambient air & noise monitoring)	143-144
9	Annexure 6 (Test reports for ambient air & noise, water & soil and DG stack emission noise monitoring along with detailed analysis)	145-183
10	Annexure 7 (Form V)	184-188
11	Annexure 8 (LOA issue to L&T for Phase 1 EPC Contract)	189-191
12	Annexure 9 (Excerpts from MoEF&CC team's site visit report)	192-220

Project Background

The Delhi Mumbai Industrial Corridor Development Corporation (DMICDC) envisages strengthening the Indian economy by creating internationally recognized, architectural icon with an innovative design and green building concepts, which enhances foreign investments and promotes sustainable development. Amongst various other planned developments such as investments Regions, Industrial Parks, Dedicated Freight Corridor (DFC), DMICDC had proposed to undertake development of a World class Exhibition and Convention Centre in the name of India International Convention & Expo Centre (*erstwhile Exhibition-cum-Convention Centre; ECC*) at Sector-25 in Dwarka, New Delhi. However, it now remains knowledge partner in the project as the same is being officially administered by the project proponent, India International Convention & Exhibition Centre Limited (IICCL) – a government of India undertaking.

The project's vision is to offer a well-organized and quality setting for international as well as national meetings, conferences, exhibitions and trade shows. It is planned that the proposed IICC will have exhibitions halls, convention Centre, banquet halls, arena, hotels, service apartments, grade-A offices, and retail services and shall be developed by India International Convention & Exhibition Centre Limited (IICCL), incorporated as the Project Development Agency under Department of Industrial Policy & Promotion, Ministry of Commerce & Industries, Government of India.

The proposed site is spread over 90 Ha. In Sector 25 of the Dwarka Sub City, in the south-western part of Delhi NCR. It is approximately 11 kms from the Terminal 3 of Indira Gandhi International (IGI) Airport and 3 km from Bijwasan Railway station. The site is at approximately 2.5 km from the western edge of IGI airport runway and falls directly under the funnel of Runway 11-29. To the north of the site lies Pochanpur village and 100 m Urban Extension Road (UER)-II connecting the site to NH-8 runs along the northern boundary of the site.

The project is envisaged to generate double employment, triple industrial output and quadruple exports. It is also envisioned to be on a scale of a Central Business District (CBD) with supporting retail, hotels, commercial office space and hospitality food and entertainment and lifestyle opportunities for the user. A major component of the new development is to promote green, sustainable building practices by integration of Sustainable Design and Building Principles, to achieve a lower Carbon footprint, and be a model of integrated sustainable design for all of India and Internationally.

The proposed site (IICC) is being developed with the intention of serving a more comprehensive role in India's economic growth. Consequently, the existing and proposed hotels, convention Centre and related uses are envisioned to benefit tremendously from the business generated by the presence of such a facility of International standards. Certain economic and socioeconomic benefits are also associated with the project, such as permanent and temporary employment with training opportunities to serve people from different countries, generation of tax and other revenue streams, and new housing and related facilities during both construction and operation phase.

The tourism markets in the region is showcasing strong growth prospects. The development of newer attractions within the region and development of road and rail-based connectivity to nearby tourism destinations will further strengthen the potential of Delhi NCR. The IICC

campus, being planned in close proximity to the International airport terminal will also capture hotel room demand from overnight leisure foreign tourists arriving in Delhi.

The project has been accorded Environmental Clearance vide File No-21-102/2017-IA-III, dated 29th August, 2017 and 20th September, 2018.

Information sheet

Monitoring the Implementation of Environmental Safeguards

Ministry of Environment Forest & Climate Change,
Regional Office (Central Region),
Lucknow

MONITORING REPORT PART – I DATA SHEET

Sl. No.	Particulars		Details
1.	Project type: River Valley / Mining / Industry / Thermal / Nuclear / Others (specify)	:	Others- 8(b) i.e. Township and Area development projects, under the provisions of the Environment Impact Assessment Notification, 2006 and amendments thereto and Circulars issued thereon.
2.	Name of the Project	:	India International Convention & Expo Centre - IICC (<i>erstwhile Exhibition-cum-Convention Centre - ECC</i>) at Dwarka, New Delhi by India International Convention & Exhibition Centre Limited (IICCL)
3.	Clearance letter (s) / OM No. and date	:	File No: No-21-102/2017-IA-III, dated 29 th August, 2017 and 20 th September, 2018.
4.	Location a) District (s) b) State (s) c) Location latitude / longitude	: : :	South-West Delhi The project area is bounded by Latitude 28°32'46.42"N to 28°33'1.20"N and Longitude 77° 2'34.39"E to 77° 2'10.40"E
5.	Address for Correspondence a) Address of the Concerned Project Chief Engineer (with Pin code & Telephone / Telex / Fax Numbers) b) Name & address of Nodal Officer (with Phone No./Fax Number(s)/Mobile No.s)	: : :	MD & CEO India International Convention & Exhibition Centre Limited (IICCL) 8 th Floor, Tower-1, LIC - Jeevan Bharti Building Connaught Place New Delhi 110001 Phone-011-26118883 Srikanth Kommu General Manager (P&T) Delhi Mumbai Industrial Corridor Development Corporation, 8 th Floor, Tower-1, LIC - Jeevan Bharti Building Connaught Place Phone- 011-26118881 Mobile- 9968281866

	c) Name & address of the Concerned Project In-charge (with Phone No. /Fax Number(S)/ Mobile No.s		V. Ramesh, Project Director, Larsen & Toubro Construction C/o IICC, Dwarka Project, Sector-25, Dwarka, New Delhi-110078 Mobile- 8886444480
	d) Present Status of the project; date of commencement of construction work along with quantum of work completed/date of operation.		Quantum of work completed as on 31 st March, 2020 - <ul style="list-style-type: none"> • Excavation and foundation works completed for all buildings • Backfilling and Civil-enabling works completed for all buildings. • Major RCC / Concreting works completed for all buildings / facilities. • Major structural works completed for service buildings like DG yard and Electrical substations. • RCC works completed for all parking basements of CC Parking and Foyer including retaining wall. • MEP works in-progress in for all parking basements of CC Parking and Foyer areas. • External Utilities works (primarily sewer laying) initiated in a progressive manner • Structural steel truss erection started for major buildings like Exhibition halls 1 & 2 and Convention Centre. • Environmental monitoring at various locations within the site area • Obtainment of building plan sanction by SDMC; fire NOC by DFS; NOC by DUAC; approval on storm water drainage by SDMC • Coordination with external organization(s) concluded for detailed design, such as, with NHAI, DMRC, DDA, DJB, IGL etc.
6	Salient Features	:	
	a) Of the Project	:	Development of India International Convention & Expo Centre – IICC (<i>erstwhile Exhibition-cum-Convention Centre - ECC</i>) project by IICCL is the largest endeavor of its kind in the entire South Asia and is poised to act as game changer for India by acting as a prime destination for MICE (Meetings, Incentives, Conventions and Exhibitions) events in Asia as well as globally. At a total estimated cost of INR 26,000 crore, this is a flagship project of the Government of India. The project is envisioned as a world class state-of-the-art business District which will consist of 5 large exhibition halls, convention centres, Multipurpose Arena along with a mixed-use district having hotels,

			<p>food & beverage (F&B) outlets, commercial & retail facilities.</p> <p>Total plot area of the proposed project is 89.72 ha and total built up area is 10,20,000 sq.m. The project will comprise 13 buildings blocks and will feature an exhibition centre along with construction of 1300 rooms of five-star hotels, 800 rooms of four-star hotel, 1000 rooms of three-star hotel and 500 service apartments. Development of 2,15,000 sqm of office space and 1,70,000 sqm of retail spaces. Approx. 2,00,000 sqm of exhibition space and 60,000 sqm of convention centre will also be constructed as a part of IICC. A 100% government-owned company titled as India International Convention and Exhibition Centre Limited (IICC Limited) has been incorporated for the implementation and management of this facility and Larsen & Toubro (L&T) Limited has been appointed as EPC Contractor for Phase-I development of this project consisting of Exhibition Halls and Convention Centre along with trunk infrastructure which is expected to be completed by December 2019. The letter of award issued to L&T has the project title as "Detailed design, construction, testing and commissioning of India International Convention & Expo Centre (IICC) in Sector-25, Dwarka, New Delhi on EPC basis",</p>
7	Break up of Project Area	:	Total project area- 89.72 ha
	a) Submergence area: forest & non-forest	:	N.A.
	b) Others	:	NA
8	Breakup of the project affected population with enumeration of those losing	:	N.A.

	houses/dwelling units agriculture land only.														
9	Financial Details	:													
	Project cost as originally planned and subsequent revised estimates and year of price reference	:	INR 2791 Cr (Please refer annexure 8 for LOI).												
	a) Allocation made for environment management plans with item wise and year wise breakup	:	<p>Please see the below table for allocation / expenditure details -</p> <table><tr><th>Year</th><th>Amount Allocated</th><th>Amount Spent</th></tr><tr><td>First</td><td>INR 50 lacs</td><td>INR 50 lacs</td></tr><tr><td>Second</td><td>INR 50 lacs</td><td>INR 50 lacs</td></tr><tr><td>Third</td><td>INR 50 lacs</td><td>INR 25 lacs / remaining in- progress</td></tr></table> <p>Itemized details will be submitted in subsequent six- monthly compliance report.</p>	Year	Amount Allocated	Amount Spent	First	INR 50 lacs	INR 50 lacs	Second	INR 50 lacs	INR 50 lacs	Third	INR 50 lacs	INR 25 lacs / remaining in- progress
Year	Amount Allocated	Amount Spent													
First	INR 50 lacs	INR 50 lacs													
Second	INR 50 lacs	INR 50 lacs													
Third	INR 50 lacs	INR 25 lacs / remaining in- progress													
	b) Benefit Cost Ratio/ Internal Rate of Return and year of assessment	:	Details will be provided in subsequent six-monthly Compliance report.												
	c) Whether it includes the cost of environmental management as shown in the above	:	Yes												
	d) Actual expenditure incurred on the project so far.	:	INR 1100 Cr (approx.)												
	e) Actual expenditure incurred on the environment management plan so far.	:	INR 94 Lacs (by end of 31 st March, 2020)												

Six Monthly Compliance Report for October, 2019 to March, 2020.

Status of compliance of conditions stipulated by Ministry of Environment, Forest & Climate Change, New Delhi in Environment Clearance issued vide File No-21-102/2017-IA-III, dated 29th August, 2017 and 20th September, 2018.

Name of Project: Development of India International Convention & Expo Centre - IICC (*erstwhile Exhibition-cum-Convention Centre - ECC*) at Dwarka, New Delhi by India International Convention & Exhibition Centre Limited (IICCCL).

S.no as per EC	Conditions stipulated in Environment Clearance	Compliance
----------------	--	------------

PART A: GENERAL CONDITIONS

I. Construction Phase

The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.

Complied.

The project proponent has obtained the following necessary clearance / approval from statutory bodies / authorities having jurisdiction (AHJ):

1. Building and Tower crane height approval from Airport Authority of India (*Annexure-1A*).
2. CTE and CTO for batching plant only and CTE for project from DPCC (*Annexure-1B*).
3. Layout plan approval from SDMC (*Annexure-1C*).
4. Concept & layout plan approval from DUAC (*Annexure-1D*).
5. Tree Felling Permission issued by DCF/West (*Annexure-1E*).
6. Handover of land for CA by DDA (*Annexure-1F*).
7. Building plan sanction by SDMC including NOCs issued by DFS and DUAC (*Annexure 1G*).
8. Approval of storm water drainage layout by SDMC-SWS (*Annexure 1H*).
9. Environmental Clearance issued by MoEF&CC (*Annexure 4*).

(i)

<p>(ii)</p> <p>The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.</p>	<p>Complied.</p> <p>The drainage system is designed and has stated being constructed in such a way that natural flow of rain water is maintained with minimal disturbance to existing topography of the site. As part of sustainable urban drainage system (SUDS), several rain water harvesting structures (RWHSs) are proposed to be installed throughout the project site so as to effectively harness the rain water from building terraces and external areas including landscape. These RWHSs will receive storm/rain water from a network of storm water catch pits, interconnected buried piping and manhole system. Further, the overflow from such structures will be connected to the municipal drainage system at key locations outside of the plot boundary (<i>Annexure IH</i> may be referred for locations of municipal drainage connectivity). The site will integrate SUDS into its final design and construction for harvesting of rainwater.</p> <p>The building is designed in line with the natural topography of the site which is generally plain so less cutting and filling is being done.</p>
<p>Construction site shall be adequately barricaded before the construction begins.</p> <p>Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height).</p>	<p>Complied.</p> <p>Wind-breaking walls of 6 m height has been constructed around the periphery of project site depending upon the height of existing DDA boundary wall (3 m min.). Photographs enclosed as <i>Annexure-2A</i>.</p>
<p>Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murrum and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site. Sand, murrum, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution.</p>	<p>Complied.</p> <p>Plastic covers are being provided for all vehicles carrying construction material(s). Photographs enclosed as <i>Annexure-2E</i>.</p>

	<p>Wet jet shall be provided for grinding and stone cutting.</p> <p>Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.</p>	<p>Complied.</p> <p>Water sprinkling is being carried out regularly in unpaved areas and alongside roads. Photographs enclosed as <i>Annexure-2F</i>.</p>
<p>(iv)</p>	<p>All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules, 2016.</p>	<p>Agreed.</p> <p>To be complied.</p> <p>Because due care has been taken at planning stage itself, the construction waste generation is minimum even though a significant construction activity has been undertaken during the period of this report. Very small amount of construction waste such as concrete, steel scrap etc. generated is being utilized in-house primarily in enabling works, for e.g., internal road leveling, pothole filling, safety barricading and other miscellaneous works. The magnitude of C&D waste generated till end of 31st March, 2020 is about 520 cum and is utilized in-house (Please see attached copy of form V for the details). Further, the construction and demolition waste which might be generated during further course of superstructure construction activities, will be handled as per schedule I of the Construction & Demolition Waste Rules, 2016. Refer <i>Annexure 2G</i> for the space allocated for temporary storage of such wastes.</p>
	<p>All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.</p> <p>Provisions shall be made for the housing of construction labor within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets,</p>	<p>Being complied.</p> <p>Dust mask and other PPEs are being provided to all workers at site. Please refer <i>Annexure-2H</i> for details.</p> <p>Being Complied.</p> <p>Temporary labour accommodation has been constructed at</p>

(v)	mobile STP, safe drinking water, medical health care, crèche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.	IICC, Dwarka site. The same has different blocks to accommodate construction workforce having all necessary infrastructure and facilities such as canteens at various locations to meet food requirements, mobile toilets for proper sanitation, safe drinking water, medical health care etc. The wastewater from labor camp is being periodically collected by sewage tankers and is being discharged into nearby Sewage pumping station (SPS) being operated and maintained by the civic body. Photographs, layout of workers camp and various facilities being offered to them is enclosed as <i>Annexure-2C</i> .
(vi)	At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.	Being complied. A total of 42.5% open spaces / green areas have been planned for the proposed IICC project. Mostly local species, dust tolerant trees are proposed to be planted as part of project. The plantation is to be initiated shortly after landscape drawings/details are issued to respective agency.
	Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC. Outdoor and common area lighting shall be LED. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.	Agreed. To be complied. Energy Conservation Building Code (ECBC)'s energy efficiency aspects have been covered in the Project design, to be implemented during construction.
	Follow super ECBC requirement of ECBC 2017 and provider compliance report. Acoustic planning to be provided as it is in air funnel of landing/takeoff of IGIA.	Agreed. To be complied.

(ix)	Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.	Being complied. The design of building has dual plumbing system for water conservation. Also, water-efficient fixtures are proposed to be used in the project.
------	---	---

This part of page is left unintentionally blank. Continuation on next page...

(x)	Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.	Being complied. The design of the project has proper dual plumbing system where treated water will be reused for flushing, car-washing and horticulture purposes. The proposed sewage treatment plant (STP – currently under construction) has been designed to treat and recycle the wastewater in compliance to DPCC norms.
(xi)	Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done. Sewage shall be treated in the STP with tertiary treatment i.e., Ultra-Filtration. The treated effluent from STP shall be recycled/re-used for flushing, horticulture & DG cooling. There will be no discharge into municipal drain.	Complied. Dual plumbing line has been provided to carry grey and black water separately. Agreed. Being complied. Technical compliance achieved through consideration in detailed design stage. During operational phase, sewage shall be treated in the STP based on MBR - Membrane Bio-Reactor technology (having Ultra-Filtration membrane).
(xii)		Treated water will be reused for flushing, horticulture & HVAC make-up water and/or DG cooling purposes.
(xiii)	The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. As proposed, 20 nos. of rainwater harvesting pits of total capacity of 450 m ³ shall be provided as per CGWB guidelines. Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials. Wet garbage shall be composted in Organic Waste Converter. Adequate space shall be provided for solid waste management within the premises which will include area for segregation, composting. The inert waste from group housing project will be sent to dumping site. As proposed Pneumatic Waste Collection System shall be provided for solid waste management.	Agreed. Being complied. Rainwater harvesting will be carried out in 20 Nos. of RWH tanks with total capacity of 9,000 KLD.
(xiv)		Agreed. To be complied. The solid waste will be managed as per the Solid Waste Management Rules, 2016.
(xv)	Solar-based electric power shall be provided to each unit for at least two bulbs / light and one fan. As proposed, central lighting and street lighting shall also be based on solar power.	Agreed. To be complied. Energy conservation measures shall be adopted by putting maximum uses of LED light.

		<input type="checkbox"/> The exhibition spaces are designed with on-site / roof top photovoltaic panel for energy saving measures. <input type="checkbox"/> All external lighting shall be solar based and automatically controlled by timer for energy saving. <input type="checkbox"/> Street/ External lighting fixtures shall be backed up by Solar photo voltaic panels with timer based automatic control for energy savings.
(xvi)	A First Aid Room shall be provided in the project both during construction and operations of the project.	<p>Complied.</p> <p>First Aid room has been provided at project site. It has Certified First Aider; Trained First Aiders; First Aid Kits, Beds, Stretchers, Oxygen cylinders and Ambulances to quickly attend to any primary medical requirements of the workforce at site level.</p> <p>Photographs of such facilities / resources are enclosed as <i>Annexure-2B</i>.</p>
(xvii)	Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled proposed vegetation on site. Appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.	<p>Being Complied.</p> <p><i>Refer Annexure-2D</i> for details.</p>
(xviii)	Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.	<p>Complied.</p> <p>Muck including excavated material generated during construction phase has been managed with due precautions so that it could not create any adverse effects on the neighboring communities. Muck generated in meagre quantities has used for site leveling and filling low lying areas. Any excess muck will be sun-dried or mechanically dried at suitable location(s) at site.</p>
	The diesel generator sets to be used during construction phase shall be low Sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.	<p>Being complied.</p> <p>The fuel being used in the DG sets is typically ultra-low sulphur diesel. The monitoring report of DG sets are attached as <i>Annexure-6</i>. A total of 18 DG sets having 2 MVA capacity each are proposed to be installed under phase 1 scope of works. All DG sets will be installed in centralized DG yard building to be able to supply 100% back-up to electrical supply.</p>

<div data-bbox="236 1998 268 2056">(xx)</div>	<div data-bbox="210 1025 274 1953">Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.</div>	<div data-bbox="210 721 242 922">Being complied.</div>
---	--	--

This part of page is left unintentionally blank. Continuation on next page...

(xxi)	As proposed, no ground water shall be used during construction / operation phase of the project.	Being complied. No underground water is being used / proposed to be used in construction / operation phase. Source of such water will be from DJB (Delhi Jal Board).
(xxii)	Approval of the CGWA require before any dewatering for basements.	Agreed. To be complied
(xxiii)	The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightning etc.	Agreed. To be complied The approval is under process.
(xxiv)	Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.	Agreed. To be complied. Hazardous waste (such as used oil, cotton soak, filters etc. will be disposed-off as per the applicable rules and norms with necessary approval from DPCC. Adequate hazardous waste collection and storage facilities are provided in a designated place away from storm drains or watercourses with proper access control and appropriate labeling. Details of such measures will be provided in the subsequent submission of this report. The quantities of generation of hazardous waste are indicated in <i>Annexure 7</i> .
(xxv)	Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.	Being complied. The vehicles hired during the construction phase for bringing / transporting the necessary construction material are ensured to have valid "pollution under check" (PUC) certificate in order to conform to the prescribed air emission standards.
(xxvi)	Ambient noise levels shall conform to residential standards both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.	Being complied. Test reports of Ambient Air and Noise Monitoring along with detailed analysis are attached as <i>Annexure-6</i> . Adequate measures are being taken so that the stipulated standards of ambient air and noise prescribed by CPCB/SPCB are not violated, for e.g., generators are equipped with adequate acoustic enclosure, generators adhere to the prescribed EPA

parameters

This part of page is left unintentionally blank. Continuation on next page...

Use of environment friendly materials in bricks, blocks and other construction materials shall be required for at least 20% of the construction material quantity.

Being complied. Fly Ash is being used in blockwork, AAC etc. as an environment-friendly construction material. As on 31st March, the quantity of fly ash used in various const. activity was approx. 11,500 cum. AAC block qty. will be provided in subsequent submission of ECR.

These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as 'on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.

An assessment of the cumulative impact of all activities being carried out or Agreed. proposed to be carried out by the project, shall be made for traffic densities and parking capabilities in a 05 km radius from the site. A detailed traffic management and a traffic decongestion plan drawn up through an organization of repute and specializing in Transport Planning shall be implemented to the satisfaction of the State Urban Development and Transport Departments shall also include the consent of all the concerned implementing agencies.

Agreed. To be complied.

A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.

Agreed.
To be complied.

- Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
- Traffic calming measures
- Proper design of entry and exit points.
- Parking norms as per local regulation

PART B - GENERAL CONDITIONS

A copy of the Environmental Clearance (EC) letter shall also be displayed on the website Complied.

- (i) of the Delhi Pollution Control Committee (DPCC). The EC letter shall also be displayed at the Regional Office, District Industries Centre and Collector's Office for 30 days.

This part of page is left unintentionally blank. Continuation on next page...

(ii)	The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year-wise expenditure shall be reported to this Ministry and its concerned Regional Office.	Being complied. The funds are earmarked for environmental protection measures in a separate account. Year-wise expenditure will be reported to the Ministry during next submission of 6-monthly compliance.
(iii)	Officials from the Regional Office of MoEF&CC, Lucknow who would be monitoring the implementation of environmental safeguards, should be given full cooperation, facilities and documents/ data by the project proponents during their inspection. A complete set of all the documents submitted to MoEF&CC shall be forwarded to the APCCF, Regional Office MoEF&CC, Lucknow.	Noted. Full cooperation shall be extended to officials of MoEF&CC, Regional Office, Lucknow during their site visit to IICC, Dwarka. Complete set of documents has been forwarded to APCCF, MoEF&CC, Regional Office, Lucknow vide letter dated 06.09.2017.
(iv)	In case of any change(s) in the scope of any changes(s) in the scope of project, the project, the project would require a fresh appraisal by this Ministry.	Noted.
(v)	The Ministry reserves the right to add additional safeguard measures subsequently, if found necessary and to take action including revoking of the environment clearance under the provision of the Environmental (Protection) Act, 1986 to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner	Noted.
(vi)	All the statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire department, Civil Aviation Department, the Forest Conservation Act, 1980 and the Wild Life (Protection) Act, 1972 etc., shall be obtained, as applicable by project proponents from the respective competent authorities.	Complied. All applicable statutory approvals have been obtained. Only CCOE clearance for HSD yard is in-progress.
(vii)	These stipulations would be enforced among others under the provisions of the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act, 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and the EIA Notification, 2006.	Please refer S. No. (i) of part A for details.
(viii)	The Project Proponent shall advertise in at least two local News Papers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the State Pollution Control Board and may also be seen on the web	Noted.
		Complied.

	<p>site of the Ministry of Environment, Forest and Climate change at http://www.envfor.nic.in. The advertisement shall be made within Seven Days from the date of receipt of the Clearance letter and a copy of the same shall be forwarded to the Regional Office of this Ministry at Lucknow.</p> <p>Any appeal against this clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.</p>		
(ix)	<p>A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/Municipal Corporation, Urban Local Body and the Local NGO, if any, from whom suggestions/representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent</p>	Complied.	No appeal has been made to Hon'ble National Green Tribunal against this Environmental Clearance.
(xi)	<p>The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, the respective Zonal Office of CPCB and the SPCB. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.</p>	<p>Being complied.</p> <p>ECR for the previous term is uploaded on DMICDC's website and can be accessed through link as below: http://dmicdc.com/Uploads/image/239imguf_IICCDwarkaECComplianceReport_Oct,2018-March,2019.pdf</p>	
(xii)	<p>The environmental statement for each financial year ending 31st March inform-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Officers of MoEF&CC by e-mail.</p>	<p>Noted.</p> <p>Form V for the period ending on 31st March, 2019 is attached as Annexure-7. The same for period ending March, 2020 shall be submitted in due course of time.</p>	

ANNEXURE – 1

(Applicable statutory approvals/clearances obtained)

- 1A) Building & Tower crane height approval from Airport Authority of India*
- 1B) CTE and CTO (for batching plants only) from DPCC*
- 1C) Concept layout plan approval from SDMC*
- 1D) Concept layout plan approval from DUAC*
- 1E) Tree Felling Permission issued by DCF/West*
- 1F) Hand-over of land for CA by DDA*
- 1G) Building plan sanction by SDMC including NOCs by DFS & DUAC*
- 1H) Storm water drainage layout approval by SDMC-SWS*

1A) Building & tower crane height approval
from Airport Authority of India

NO. AAI/RH&NR/ATM/NOC/2017/352/2025-2028

DEPARTMENT OF INDUSTRIAL POLICY & PROMOTION, GOVERNMENT OF INDIA Date: 22-12-2017

UDYOG BHAWAN, NEW DELHI

Valid Upto: 21-12-2025

No Objection Certificate for Height Clearance

1. This NOC is issued by Airports Authority of India (AAI) in pursuance of responsibility conferred by and as per the provisions of Govt. of India (Ministry of Civil Aviation) order GSR751 (E) dated 30th Sep. 2015 for Safe and Regular Aircraft Operations.

2. This office has no objection to the construction of the proposed structure as per the following details:

NOC ID :	PALM/NORTH/B/121217/267322
Applicant Name*	Pranjal Pareek
Site Address*	BLOCK NO 01, SECTOR 25, DWARKA, DWARKA, South West Delhi, Delhi
Site Coordinates*	77 02 34.02-28 33 21.87, 77 02 38.05-28 33 26.51, 77 02 39.96-28 33 17.72, 77 02 43.98-28 33 22.39,
Site Elevation in mtrs AMSL as submitted by Applicant*	213.4 M
Permissible Top Elevation in mtrs Above Mean Sea Level(AMSL)	258.4M

*As provided by applicant

3. This NOC is subject to the terms and conditions as given below:

a. Permissible Top elevation has been issued on the basis of Site coordinates and Site Elevation submitted by Applicant. AAI neither owns the responsibility nor authenticates the correctness of the site coordinates & site elevation provided by the applicant. If at any stage it is established that the actual data is different, this NOC will stand null and void and action will be taken as per law. The office in-charge of the concerned aerodrome may initiate action under the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994"

b. The Structure height (including any superstructure) shall be calculated by subtracting the Site elevation in AMSL from the Permissible Top Elevation in AMSL i.e. Maximum Structure Height = Permissible Top Elevation minus (-) Site Elevation.

c. The issue of the 'NOC' is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994.

- d. No radio/TV Antenna, lighting arresters, staircase, Mumtee, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation of 258.4M, as indicated in para 2.
- e. Only use of oil fired or electric fired furnace is permissible, within 8 KM of the Aerodrome Reference Point.
- f. The certificate is valid for a period of 8 years from the date of its issue. One time revalidation without assessment may be allowed, provided construction work has commenced, subject to the condition that such request shall be made within the validity period of the NOC and the delay is due to circumstances which are beyond the control of the developer.
- g. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights
- h. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.
- i. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in
- j. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is to ensure the safe and regular aircraft operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.
- k. This NOC has been issued w.r.t. the Civil Airports. Applicant needs to seek separate NOC from Defence, if the site lies within their jurisdiction.
- l. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.
- m. In case of any dispute w.r.t site elevation and/or AGL height, top elevation in AMSL shall prevail.

d. No radio/TV Antenna, lighting arresters, staircase, Mumtee, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation of 258.48 M (Restricted) , as indicated in para 2.

e. Only use of oil fired or electric fired furnace is permissible, within 8 KM of the Aerodrome Reference Point.

f. The certificate is valid for a period of 8 years from the date of its issue. One time revalidation without assessment may be allowed, provided construction work has commenced, subject to the condition that such request shall be made within the validity period of the NOC and the delay is due to circumstances which are beyond the control of the developer.

g. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights

h. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.

i. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in

j. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is to ensure the safe and regular aircraft operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.

k. This NOC has been issued w.r.t. the Civil Airports. Applicant needs to seek separate NOC from Defence, if the site lies within their jurisdiction.

l. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.

m. In case of any dispute w.r.t site elevation and/or AGL height, top elevation in AMSL shall prevail.

DEPARTMENT OF INDUSTRIAL POLICY & PROMOTION, GOVERNMENT OF INDIA Date: 22-12-2017

UDYOG BHAWAN, NEW DELHI

Valid Upto: 21-12-2025

No Objection Certificate for Height Clearance

1. This NOC is issued by Airports Authority of India (AAI) in pursuance of responsibility conferred by and as per the provisions of Govt. of India (Ministry of Civil Aviation) order GSR751 (E) dated 30th Sep. 2015 for Safe and Regular Aircraft Operations.

2. This office has no objection to the construction of the proposed structure as per the following details:

NOC ID :	PALM/NORTH/B/121217/267328
Applicant Name*	Pranjal Pareek
Site Address*	BLOCK NO 04 SECTOR-25 DWARKA, DWARKA, South West Delhi, Delhi
Site Coordinates*	77 02 41.631-28 33 16.643, 77 02 44.554-28 33 14.667, 77 02 44.922-28 33 20.392, 77 02 47.88-28 33 18.50,
Site Elevation in mtrs AMSL as submitted by Applicant*	213.4 M
Permissible Top Elevation in mtrs Above Mean Sea Level(AMSL)	258.48 M (Restricted)

*As provided by applicant

3. This NOC is subject to the terms and conditions as given below:

a. Permissible Top elevation has been issued on the basis of Site coordinates and Site Elevation submitted by Applicant. AAI neither owns the responsibility nor authenticates the correctness of the site coordinates & site elevation provided by the applicant. If at any stage it is established that the actual data is different, this NOC will stand null and void and action will be taken as per law. The office in-charge of the concerned aerodrome may initiate action under the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994"

b. The Structure height (including any superstructure) shall be calculated by subtracting the Site elevation in AMSL from the Permissible Top Elevation in AMSL i.e. Maximum Structure Height = Permissible Top Elevation minus (-) Site Elevation.

c. The issue of the 'NOC' is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994.

भारतीय विमानपत्तन प्राधिकरण AIRPORTS AUTHORITY OF INDIA

- d. No radio/TV Antenna, lighting arresters, staircase, Mumtee, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation of 258.48 M (Restricted) , as indicated in para 2.
- e. Only use of oil fired or electric fired furnace is permissible, within 8 KM of the Aerodrome Reference Point.
- f. The certificate is valid for a period of 8 years from the date of its issue. One time revalidation without assessment may be allowed, provided construction work has commenced, subject to the condition that such request shall be made within the validity period of the NOC and the delay is due to circumstances which are beyond the control of the developer.
- g. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights
- h. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.
- i. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in
- j. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is to ensure the safe and regular aircraft operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.
- k. This NOC has been issued w.r.t. the Civil Airports. Applicant needs to seek separate NOC from Defence, if the site lies within their jurisdiction.
- l. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.
- m. In case of any dispute w.r.t site elevation and/or AGL height, top elevation in AMSL shall prevail.

Applicant Name*	Pranjal Pareek
Site Address*	BLOCK NO 16 SECTOR-25 DWARKA,DWARKA, South West Delhi, Delhi
Site Coordinates*	77 02 16.218-28 33 08.069, 77 02 16.82-28 33 07.695, 77 02 21.61-28 33 14.28, 77 02 22.189-28 33 13.88,
Site Elevation in mtrs AMSL as submitted by Applicant*	213.4 M
Permissible Top Elevation in mtrs Above Mean Sea Level(AMSL)	258.4M

*As provided by applicant

3. This NOC is subject to the terms and conditions as given below:

a. Permissible Top elevation has been issued on the basis of Site coordinates and Site Elevation submitted by Applicant. AAI neither owns the responsibility nor authenticates the correctness of the site coordinates & site elevation provided by the applicant. If at any stage it is established that the actual data is different, this NOC will stand null and void and action will be taken as per law. The office in-charge of the concerned aerodrome may initiate action under the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994"

b. The Structure height (including any superstructure) shall be calculated by subtracting the Site elevation in AMSL from the Permissible Top Elevation in AMSL i.e. Maximum Structure Height = Permissible Top Elevation minus (-) Site Elevation.

c. The issue of the 'NOC' is further subject to the provisions of Section 9-A of the Indian Aircraft Act, 1934 and any notifications issued there under from time to time including the Aircraft (Demolition of Obstruction caused by Buildings and Trees etc.) Rules, 1994.

क्षेत्रीय मुख्यालय उत्तरी क्षेत्र, परिचालन कार्यालय परिसर रंगपुरी, नई दिल्ली - 110037 दूरभाष संख्या - 91-11-25653566

Regional headquarter Northern Region, Operational Offices Complex Rangpuri, New Delhi-110 037 Tel: 91-11-25653566

"हिंदी पत्रों का स्वागत है।"

भारतीय विमानपत्तन प्राधिकरण AIRPORTS AUTHORITY OF INDIA

- d. No radio/TV Antenna, lighting arresters, staircase, Mumtee, Overhead water tank and attachments of fixtures of any kind shall project above the Permissible Top Elevation of 258.4M, as indicated in para 2.
- e. Only use of oil fired or electric fired furnace is permissible, within 8 KM of the Aerodrome Reference Point.
- f. The certificate is valid for a period of 8 years from the date of its issue. One time revalidation without assessment may be allowed, provided construction work has commenced, subject to the condition that such request shall be made within the validity period of the NOC and the delay is due to circumstances which are beyond the control of the developer.
- g. No light or a combination of lights which by reason of its intensity, configuration or colour may cause confusion with the aeronautical ground lights of the Airport shall be installed at the site at any time, during or after the construction of the building. No activity shall be allowed which may affect the safe operations of flights
- h. The applicant will not complain/claim compensation against aircraft noise, vibrations, damages etc. caused by aircraft operations at or in the vicinity of the airport.
- i. Day markings & night lighting with secondary power supply shall be provided as per the guidelines specified in chapter 6 and appendix 6 of Civil Aviation Requirement Series 'B' Part I Section 4, available on DGCA India website: www.dgca.nic.in
- j. The applicant is responsible to obtain all other statutory clearances from the concerned authorities including the approval of building plans. This NOC for height clearances is to ensure the safe and regular aircraft operations and shall not be used as document for any other purpose/claim whatsoever, including ownership of land etc.
- k. This NOC has been issued w.r.t. the Civil Airports. Applicant needs to seek separate NOC from Defence, if the site lies within their jurisdiction.
- l. In case of any discrepancy/interpretation of NOC letter, English version shall be valid.
- m. In case of any dispute w.r.t site elevation and/or AGL height, top elevation in AMSL shall prevail.

No. DIAL/2019-20/Ops-Plng/454

Date: 10.06.2019

Project Director
India International Convention Centre Project Office,
Sector-25, Dwarka
New Delhi

Sub: Permission for installation of cranes at convention centre building at India International Convention Centre Project, Dwarka, New Delhi

Reference:

- i. AAI Letter no. "AAI/RHQ/NR/ATM/NOC/2019/171/749-57" dated 13.05.2019
- ii. LT- B&F/CBA-PS/IICC/GEN/2019/0030 dated 29.05.2019

Dear Sir,

Kindly refer above mentioned letters. The permission of installation of cranes is hereby granted with the following conditions:

1. The location and top AMSL of cranes shall be restricted as per the below table:

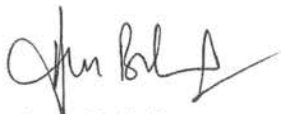

Structure	Coordinates	TOP AMSL	Radius of Operations
Tower Crane 1 TC1	28 33 12.52 N 077 02 45.21 E	266.92m	65m
	28 33 15.84 N 077 02 48.27 E		
	28 33 18.55 N 077 02 44.50 E		
	28 33 15.22 N 077 02 41.44 E		
Tower Crane 2 TC2	28 33 14.71 N 077 02 47.46 E	258.22m	70m
	28 33 18.29 N 077 02 50.76 E		
	28 33 21.20 N 077 02 46.70 E		
	28 33 17.62 N 077 02 43.41 E		
Tower Crane 3 TC3	28 33 16.32 N 077 02 44.95 E	270.52m	70m
	28 33 19.90 N 077 02 48.25 E		
	28 33 22.81 N 077 02 44.19 E		
	28 33 19.23 N 077 02 40.90 E		
Tower Crane 4 TC4	28 33 14.12 N 077 02 42.83 E	255.12m	65m
	28 33 17.45 N 077 02 45.89 E		
	28 33 20.16 N 077 02 42.12 E		
	28 33 16.82 N 077 02 39.06 E		
Period of operations:	Till 31 st March 2020 (H24 basis)		

2. The contact details of project manager and crane operators shall be available round the clock, as mentioned in above said L&T letter. Any deviation/ changes on same may be intimated to Operations Duty Manager at 9717390402, 011-61231766.
3. Obstacle lighting should be located at the highest point and boom of the crane at regular interval that should be visible from all direction as specified in attachment 1.
4. The crane shall be marked by flags as specified in attachment 1.

It is emphasized that no deviation, change or amendment to the above conditions is permitted without prior approval from undersigned.

Thanking you,

Yours Sincerely,
For Delhi International Airport Ltd.

Arun Behal
Head- Airside Management

Copy to:

1. GM- ATM, AAI, IGI Airport, New DATS Building, IGI Airport, New Delhi 110037
2. GM- ATM, NOC, Regional Headquarter, NR, Operational Offices, Gurgaon Road, New Delhi- 110037

Markings by Flags

6.2.3.5 Flags used to mark fixed objects shall be displayed around, on top of, or around the highest edge of the object. When flags are used to mark extensive objects or a group of closely spaced objects, they shall be displayed at least every 15 m. Flags shall not increase the hazard presented by the object they mark.

6.2.3.6 Flags used to mark fixed objects shall not be less than 0.6 m square on each side

6.2.3.7 Flags used to mark fixed objects should be orange in colour or a combination of two triangular sections, one orange and the other white, or one red and the other white, except that where such colours merge with the background, other conspicuous colours should be used.

Lighting of objects with a height 45 m to a height less than 150 m above ground level

6.2.3.23 Medium-intensity obstacle lights, Type A, B or C, should be used. Medium-intensity obstacle lights, Types A and C, should be used alone, whereas medium intensity obstacle lights, Type B, should be used either alone or in combination with low-intensity obstacle lights, Type B.

6.2.3.24 Where, an object is indicated by medium-intensity obstacle lights, Type A, and the top of the object is more than 105 m above the level of the surrounding ground or the elevation of tops of nearby buildings (when the object to be marked is surrounded by buildings), additional lights shall be provided at intermediate levels. These additional intermediate lights shall be spaced as equally as practicable, between the top lights and ground level or the level of tops of nearby buildings, as appropriate, with the spacing not exceeding 105 m.

6.2.3.25 Where, an object is indicated by medium-intensity obstacle lights, Type B, and the top of the object is more than 45 m above the level of the surrounding ground or the elevation of tops of nearby buildings (when the object to be marked is surrounded by buildings), additional lights shall be provided at intermediate levels. These additional intermediate lights shall be alternately low-intensity obstacle lights, Type B, and medium-intensity obstacle lights, Type B, and shall be spaced as equally as practicable between the top lights and ground level or the level of tops of nearby buildings, as appropriate, with the spacing not exceeding 52 m.

6.2.3.26 Where an object is indicated by medium-intensity obstacle lights, Type C, and the top of the object is more than 45 m above the level of the surrounding ground or the elevation of tops of nearby buildings (when the object to be marked is surrounded by buildings), additional lights shall be provided at intermediate levels. These additional intermediate lights shall be spaced as equally as practicable, between the top lights and ground level or the level of tops of nearby buildings, as appropriate, with the spacing not exceeding 52 m.

Table 6-1. Characteristics of obstacle lights

1	2	3	4	5	6	7
Light Type	Colour	Signal type/ (Flash Rate)	Peak Intensity (cd) at given Background Luminance (b)			Light Distribution Table
			Day (Above 500cd/m ²)	Twilight (50 - 500cd/m ²)	Night (Below 500cd/m ²)	
Low-intensity, Type A (fixed obstacle)	Red	Fixed	N/A	N/A	10	6-2
Low-intensity, Type B (fixed obstacle)	Red	Fixed	N/A	N/A	32	6-2
Low-intensity, Type C (Mobile obstacle)	Yellow/ Blue (a)	Flashing (60-90 fpm)	N/A	40	40	6-2
Low-intensity, Type D (Follow Me Vehicle)	Yellow	Flashing (60-90 fpm)	N/A	200	200	6-2
Low -intensity, type E	Red	Flashing (c)	N/A	N/A	32	6-2 (type B)
Medium Intensity, Type A	White	Flashing (20-60 fpm)	20,000	20,000	2000	6-3
Medium Intensity, Type B	Red	Flashing (20-60 fpm)	N/A	N/A	2000	6-3
Medium Intensity, Type C	Red	Fixed	N/A	N/A	2000	6-3
High Intensity, Type A	White	Flashing (40-60 fpm)	200,000	20,000	2000	6-3
High Intensity, Type B	White	Flashing (40-60 fpm)	100,000	20,000	2000	6-3

a) See 6.2.2.6

b) Flashing lights, effective intensity as determined in accordance with the Aerodrome Design Manual (Doc 9157), Part 4.

c) For wind turbine application, to flash at the same rate as the lighting on the nacelle.

Table 6-2. Light distribution for low-intensity obstacle lights

	Minimum Intensity (a)	Maximum Intensity (a)	Vertical Beam Spread (f)	
			Maximum Beam Spread	Intensity
Type A	10 cd (b)	N/A	10°	5 cd
Type B	32 cd (b)	N/A	10°	16 cd
Type C	40 cd (b)	400 cd	12° (d)	20 cd
Type A	200 cd (b)	400 cd	N/A (e)	N/A

Note.— This table does not include recommended horizontal beam spreads. 6.2.1.3 requires 360° coverage around an obstacle. Therefore, the number of lights needed to meet this requirement will depend on the horizontal beam spreads of each light as well as the shape of the obstacle. Thus, with narrower beam spreads, more lights will be required.

a) 360° horizontal. For flashing lights, the intensity is read into effective intensity, as determined in accordance with the Aerodrome Design Manual (Doc 9157), Part 4.

b) Between 2 and 10° vertical. Elevation vertical angles are referenced to the horizontal when the light is levelled.

c) Between 2 and 20° vertical. Elevation vertical angles are referenced to the horizontal when the light is levelled.

d) Peak intensity should be located at approximately 2.5° vertical.

e) Peak intensity should be located at approximately 17° vertical.

f) Beam spread is defined as the angle between the horizontal plane and the directions for which the intensity exceeds that mentioned in the "intensity" column.

Table 6-3. Light distribution for medium- and high-intensity obstacle lights according to benchmark intensities of Table 6-1

Benchmark Intensity	Minimum Requirement					Recommendations				
	Vertical elevation angle (b)			Vertical beam spread (c)		Vertical elevation angle (b)			Vertical beam spread (c)	
	0°	-1°	-10°			0°	-1°	-10°		
	Minimum Average Intensity	Minimum Intensity	Minimum Intensity	Minimum Beam Spread	Intensity	Maximum Intensity	Maximum Intensity	Maximum Intensity	Minimum Beam Spread	Intensity
200 000	200 000	150 000	75 000	3°	75 000	250 000	112 500	7 500	7°	75 000
100 000	100 000	75 000	37 500	3°	37 500	125 000	56 250	3 750	7°	37 500
20 000	20 000	15 000	7 500	3°	7 500	25 000	11 250	750	N/A	N/A
2 000	2 000	1 500	750	3°	750	2 500	1 125	75	N/A	N/A

Note.— This table does not include recommended horizontal beam spreads. 6.2.1.3 requires 360° coverage around an obstacle. Therefore, the number of lights needed to meet this requirement will depend on the horizontal beam spreads of each light as well as the shape of the obstacle. Thus, with narrower beam spreads, more lights will be required.

a) 360° horizontal. All intensities are expressed in Candela. For flashing lights, the intensity is read into effective intensity, as determined in accordance with the Aerodrome Design Manual (Doc 9157), Part 4.

b) Elevation vertical angles are referenced to the horizontal when the light unit is levelled.

c) Beam spread is defined as the angle between the horizontal plane and the directions for which the intensity exceeds that mentioned in the "intensity" column.

Note.— An extended beam spread may be necessary under specific configuration and justified by an aeronautical study.

1B) Consent to Establish (CTE) and Consent to Operate (CTO)* from DPCC

**CTO – Only for the batching plants*

To,
 M/s Exhibition Cum Convention centre Dwarka
 Under Delhi Mumbai Industrial Corridor Development Corporation.
 Sector- 25, Dwarka
 New Delhi -110078

CORRIGENDUM

Subject: Consent to Establish u/s 21 of the Air (Prevention and Control of Pollution) Act,1981 and u/s 25/26 of the Water(Prevention and Control of Pollution) Act,1974 as amended to date.

This has reference to the Consent to Establish vide Consent request No.DPCC/CMC/RED/2017/59621 dated 30.08.2017 issued on 25.10.2017, to M/s Exhibition Cum Convention Centre Dwarka ,under Delhi Mumbai Industrial Corridor Development Corporation.Sector- 25, Dwarka, New Delhi-110078, vide certificate No. R-028964 issued vide this office dispatch No.1358 dated 27.10.2017.In this regard it is to inform that validity of Consent is up to **28.08.2024**, with the condition that treated effluent from Sewage Treatment Plants shall meet the following standards.

S.No.	Parameter Name	Prescribed standard
1	pH	5.5-9
2	Total Suspended Solids(TSS)	30
3	Bio-Chemical Oxygen Demand[3days at 27 ^o c]	20
4	COD	250
5	Oil and Grease	10
6	Ammonical Nitrogen (as N)	50
7	Dissolved Phosphate(as P)	5
8	Phosphate(as P)	01
9	Nitrate Nitrogen	10

This is being issued as per decision taken by Consent Management Committee for 2(a) cases.

CONSENT ORDER

Despatch No. 1358
Date. 27/10/17

Certificate No. **R-028964**

Name of the Unit : **EXHIBITION CUM CONVENTION CENTRE DWARKA UNDER DELHI MUMBAI**
Address : **INDUSTRIAL CORRIDOR DEVELOPMENT CORPORATION**
: **SECTOR 25 DWARKA, DELHI-110078**

Consent Order No : **DPCC/CMC/2017/40770**

Date of Issue : **25-10-2017**

Product/Activity : **EXHIBITION CUM CONVENTION CENTRE**

This Consent to **Establish** is hereby granted under section 21 of the Air (Prevention & Control of Pollution) Act, 1981 and under section 25/26 of the Water (Prevention & Control of Pollution) Act, 1974 under **Orange** Category. This consent is subject to terms and conditions specified overleaf and valid for one year period (or as decided in specific case) from the date of submission of the application. **This is being issued with reference to your application ID : 30-08-2017 From 30-08-2017 To 29-08-2018.**

M/s N/A has done the analysis vide report dated N/A as follows:

N/A

Prescribed Standards: Nil

3. The treated effluent from STP shall be recycled/ re-used for flushing, horticulture & DG cooling. There will be no discharge into municipal drain.

Verified by : **ENVIRONMENTAL ENGINEER** Issuing Authority : **SENIOR ENVIRONMENTAL ENGINEER**

SANJAY VATTS
Env. Engineer (CDC)

Dr. Chandra Prakash
Sr. Env. Engineer
Delhi Pollution Control Committee

Terms and Conditions

1. The Consent is **Activity specific** and based on the information provided in the consent application alongwith the documents/subsequent documents/ information submitted to Delhi Pollution Control Committee(DPCC). The Consentee shall apply for fresh consent in case of any change in the activity/manufacturing process.
2. The Consentee shall display the **Name of the unit** alongwith its Address, name of the Proprietor/Directors/ Partners etc, Contact Phone No(s) and its Activities /Processes/ Products etc, on a Display Board to be placed / fixed at the main gate of the unit.
3. The Consentee / unit shall have / take separate Electricity / Power Connection in its name and shall have / install separate meter in this regard.
4. The Consentee shall provide and maintain separate drainage system for collection of trade and sewage effluents. Terminal manholes shall be provided at the end of collection system and shall be connected to the conveyance system / sewerage system of the area leading to Common Effluent Treatment Plant of the Industrial Area / Sewage Treatment Plant of the catchment area.
5. The Consentee shall obtain permission from Delhi Jal Board, for ground water extraction, if any, as per the various orders/Notifications of Govt. of NCT of Delhi.
6. In case the unit is located in the industrial area where Common Effluent Treatment Plant (CETP) has been provided, the Consentee shall make regular payment of its share for the operation and maintenance of CETP to the concerned CETP Society as per the Delhi Common Effluent Treatment Plants Act, 2000, as amended to date.
7. The Consentee shall ensure proper channelization / control system for fugitive emissions generated from the unit in and around the premises of the unit.
8. The Consentee shall comply with the noise standards laid down vide Gazette Notification of Ministry of Environment and Forest(MOEF), Government of India Dated 17.05.2002 & 12.07.2004, as amended to date, for the Diesel Generator Set(s) and shall also comply with the Emission Standards prescribed for Diesel Engines [(Engine rating more than 0.8 MW) for Power Plant; Generator Set applications and other requirements], if any, as per the Gazette Notification of MOEF, Dated 09.07.2002, as amended to date. Stack Height for sets(Engine rating more than 0.8 MW) commissioned after 01.07.2003 shall be maximum of following (i) Minimum 5 meter above the building where generator set is installed (ii) 30 meter (iii) $14Q^{0.37}(Q - \text{Total SO}_2 \text{ emission from the plant in kg/hr})$ and for other DG Set(s) (upto 0.8 MW) stack height shall be as per the following formula, $H = h + 0.2\sqrt{KVA}$ (H- Total Height of stack in meter, h = Height of the building in meters where the Generator Set is installed, KVA = Total Generator capacity of the set in KVA).
9. The Consentee shall comply with the provisions of the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016, as amended to date, the Batteries (Management and Handling) Rules, 2001, as amended to date, Solid Waste Management Rules, 2016 and E-Waste (Management) Rules, 2016, the Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989, as amended to date, wherever applicable. All such wastes generated from the unit will be managed and handled as per the provisions of the said Rules and will be disposed only through the Recycler / Reprocessor / Authorized Agencies for such wastes, authorized by MOEF/ Central Pollution Control Board/ State Pollution Control Board/Committee/DPOC as per details available on their websites.
10. The Consentee shall comply with the provisions of the Plastic Waste Management Rules, 2016, as amended to date, if applicable.
11. The Consentee shall comply the other prescribed standards of Effluent / Emissions as prescribed and as applicable under the provisions of the Environment (Protection) Act, 1986, as amended to date and various Rules thereunder including the Noise Pollution (Regulation and Control) Rules, 2000, as amended to date.
12. The Consentee engaged in the mfg. of plastic product(s) and being accorded Consent to Establish (CTE) or Consent to Operate (CTO)/(Renewal) of consent shall provide hood and suction arrangement followed by duct raised at least 2 mts above roof level and submit compliance report while applying for CTO (for cases of CTE) or submit an affidavit within six months in other cases.
13. In case of Plastic Reprocessing units, the Consentee shall channelize the process emissions by hood and suction arrangement with stack of 11 meter height OR 2 meter above rooftop of shed/ building whichever is more and emissions will conform to limits of Particulate Matters of $150 \text{ mg}/\text{NM}^3$ and HCl mist of $35 \text{ mg}/\text{NM}^3$.
14. In case of Rubber Processing and Rubber Product unit, the Consentee shall channelize the their fugitive emissions by providing hood and suction arrangement with stack of 12 meter height OR 2 meter above rooftop of shed/ building whichever is more and shall also comply with the prescribed standards / norms as mentioned in the Gazette Notification of MOEF G.S.R 221(E) Dated 18.03.2011 (Emission standards mentioned in the said notification shall not be applicable to SSI units).
15. The Consentee shall promote the use of CFL and recovery of mercury from CFL Lamps and should create a system of replacing of old bulbs for new to enable recovery of mercury after the bulbs are fused.
16. The Unit shall also comply with all the conditions stipulated in Annexure -1.

Annexure-1

1. The Consentee shall install Sewage Treatment Plant (STP) and meet the prescribed standards as given in this Consent Order and before operation of the Project.
 2. Sewage shall be treated in the STP with tertiary treatment i.e. Ultra Filtration. The treated effluent from STP shall be recycled/ re-used for flushing, horticulture & DG cooling. There will be no discharge into municipal drain.
 3. Magnetic flow meter should be installed to monitor consumption of fresh water as well as treated water.
 4. The Project proponent shall provide electromagnetic flow meter at the inlet & outlet of the water supply, Inlet & Outlet of the STP and any pipeline to be used for re-using the treated wastewater back into system for cooling, flushing and for horticulture purpose/green etc. and shall maintain a record of readings of each such meters on daily basis.
 5. The quantity of fresh water usage and water recycling shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Delhi Pollution Control Committee on six monthly basis.
 6. The treated wastewater shall be recycled and reused for Horticulture/landscape purposes to reduce the demand of fresh water as committed.
 7. Capacity of the Diesel Generator Set (s) in the unit 6x 250 KVA, 9x125 KVA, and 12x 65KVA. The Consentee shall provide and maintain the Acoustic Enclosure/ Acoustic Treated room for DG Set(s) in good condition and provide the adequate stack height for DG Set(s) to meet the prescribed standards/ norms. The Consentee shall not operate the DG set(s) till compliance of the prescribed norms/ standards for DG Sets. The DG sets installed for construction purposes shall also comply with the prescribed norms/standards.
 8. The Consentee shall comply with the applicable provisions/Direction given vide Gazette Notification of Department of Environment Govt. of NCT of Delhi, Dated 23.10.12 including the direction that no person shall manufacture, import, store, sell or transport any kind of plastic carry bags (including that of poly Propylene, Non Woven fabric type carry bags) in the whole of National Capital Territory of Delhi.
 9. The Consentee shall provide wide spread Green Cover and the use of Fly Ash as per Fly Ash notification dated 14.09.1999 shall be mandatory.
 10. The Consentee shall ensure use of Ozone Depleting Substances (ODS) free appliances so that no toxic gases in air conditioning/refrigeration/fire extinguishers are created.
 11. During the construction Phase for control of dust pollution all precautionary measures should be ensured in compliance of Honble National Green Tribunal order dated 4.12.2014 & 10.04.2015 in O.A No. 21 of 2014 and O.A No. 95 of 2014 and also subsequent orders in the said case in the matter of Vardhaman Kaushik Vs Union of India & others and Sanjay Kulshreshtha Vs Union of India & Ors.
 12. It will be the responsibility of the project proponent to obtain prior clearances/ approval & ensure compliances under all other relevant Acts/Rules/ Regulations/ Guidelines/Instructions/ Court Orders/Tribunal Orders as applicable of this project before starting of the project.
 13. Zero Garbage concepts shall be implemented with appropriate composting technology.
 14. The Consentee shall not extract the Ground Water without obtaining prior permission in this regard from DJB/CGWA. The Consentee shall ensure that there is no borewell in the premises and if exist, same shall be closed/sealed with immediate effect till permission is received from DJB/CGWA.
 15. The Consentee shall submit application for extension of the Consent/ one month in advance of the expiry date of this Consent Order.
 16. This Consent is being granted focusing only on the Water Act, 1974 & Air Act, 1981, as amended to date. The project will be regulated by the concerned local Civic Authorities under the provisions of the relevant provisions of the extant MPD-2021, Building Control Regulations and Safety regulations and any other statute/ law applicable. The investment made in the project, if any, based on Consent so granted, in anticipation of the clearance from other statutory authorities shall be entirely at the cost and risk of the project proponent DPCC shall not be responsible in this regard in any manner.
 17. Project proponent is allowed to conduct trial after the completion of his project to test the pollution control devices and to obtain test report of emissions/ effluents. Thereafter Project Proponent will apply for Consent to Operate along with test reports. The trial will be permitted within the period of maximum three months from the date of completion and project proponent shall give prior intimation of the dates on which trial would start and end.
 18. The Consentee shall comply with the provision of Solid Waste Management Rules, 2016.
 19. The Consentee shall also comply with following:
 - (i) Rules 4(8) of Solid Waste Management Rules, 2016.
 - (ii) Orders of Honble National Green Tribunal Dated 02.12.2016 in Original Application No. 281 of 2016 (M.A. No. 1007/2016) and Original Application No 22 (T HC) of 2013 (M.A.No. 19 of 2014) in the matter of Kudrat Sandhu Vs.Govt. of NCT & Ors. and Sukhdev Vihar Residents Welfare Association & Ors. Vs. State of NCT of Delhi & ors.
 - (a) Regarding solid Waste segregation and its proper disposal.
 - (b) Regarding prohibition on storage, sale and use of disposal plastic glasses in entire NCT, Delhi at hotels, restaurant and public as well as private functions w.e.f. 01.01.2017.
 20. **Unit shall comply with all conditions stipulated in the Environmental Clearance issued by MOEF on 29.08.2017 and shall submit half yearly compliance report in respect of the terms and conditions stipulated in Environmental Clearance to Delhi Pollution Control Committee (DPCC).**
- In the event of any information furnished by the Consentee found to be false OR in case of failure to comply with any of the above mentioned consent conditions, consent granted through this Consent Order shall be deemed to be revoked without any notice and necessary action as per law shall be taken, which may include closure of the unit and prosecution for wrong declaration.
- The Consent granted to the Consentee is to ensure control of pollution from the premises of the unit in accordance with various Pollution Control Laws and in no way confers the right to the Consentee / unit to exist in violation of other laws and statutory provisions including the Master Plan of Delhi.
- Notwithstanding anything contained in this consent order, Delhi Pollution Control Committee, reserves its right to review any / or all the conditions imposed herein above and to make such variations as deemed fit for the purpose of enforcement of the Air (Prevention and Control of Pollution) Act, 1981, as amended to date and the Water(Prevention and Control of Pollution) Act, 1974, as amended to date.
- This issues in view of the Office Order No. F.No. DPCC/ Consent/2017/569-580 dated 31.05.2017 regarding processing of the consent cases.

Reason: This document is legal for DPCC Purpose
Issued By SEE, DPCC
Location: Delhi

Terms and Conditions

1. The Consent is Activity specific and based on the information provided in the consent application alongwith the documents subsequent documents information submitted to Delhi Pollution Control Committee (DPCC). The Consentee shall apply for fresh consent in case of any change in the activity manufacturing process.
 2. The Consentee shall have/take separate Electricity Power Connection in its name and shall have install separate meter in this regard.
 3. The Consentee shall Display the Name of the Unit along with its Address, name of the Proprietor Directors Partners, Contact Phone No(s) its Activities Processes Products, Status of Consent Operate (under Air and Water Acts) Order No., Date of Issue, Valid upto and K. No of the Meter (Electricity/Power connection in the name of Unit) on a Display Board to be Provided Fixed at the main gate of the unit. The Consentee shall submit photograph of the Display Board alongwith the application for Consent to Operate as a proof for proving Display Board.
 4. The Consentee shall comply the prescribed standards of emission as applicable under the provisions of Environment (Protection) Act 1986 and the Rules made thereunder.
 5. The Consentee shall comply with the norms laid down vide Gazette Notification of Ministry of Environment and Forests, Government of India dated 17.05.2002 for the Diesel Generator Set(s), used if any and further Notifications in this regard.
 6. The Consentee shall comply with the noise standards laid down vide Gazette Notification of Ministry of Environment and Forests(MOEF), Government of India Dated 17.05.2002 and 12.07.2004 as amended to date for the Diesel Generator Set(s) and shall also comply with the Emission Standards prescribed for Diesel Engines (Engine rating more than 0.8 MW) for Power Plant, Generator Set applications and other requirements) if any, as per the Gazette Notification of MOEF, Dated 11.07.2002, as amended to date. Stack Height for sets(Engine rating more than 0.8 MW) commissioned after 01.07.2003 shall be maximum of following (i)Minimum 6 meter above the building where generator set is installed (ii) 30 meter (iii) 14Q0.3(Q- Total SO₂ emission from the plant in kg/hr) and for other DG Set(s) (upto 0.8 MW) stack height shall be as per the following formula, $H - h \geq 0.2KVA$ (H- Total Height of stack in meter, h - Height of the building in meters where the Generator Set is installed, KVA - Total Generator capacity of the set in KVA).
 7. The Consentee shall comply with requirement of the Batteries (Management and Handling) Rules, 2001, the E-Waste (Management) Rules, 2016, the Plastic Waste Management Rules, 2016, the Manufacture, Storage and Import of Hazardous Chemicals Rules, 1989, as amended to date, wherever applicable. All such wastes generated from the unit will be managed and handled as per the provisions of the said Rules and will be disposed only through the Recycler Re processor Authorised Agencies for such wastes, authorised by MOEF Central Pollution Control Board/ State Pollution Control Board/Pollution control Committees as per details available on their websites wherever applicable.
 8. RMC Plants functioning from the agriculture land shall preserve the top soil before establishing the RMC Plant and the top soil shall be again laid after closure of the plant.
 9. Continuous dust /wind breaking walls of at least 3 meters above the maximum height of heap.
 10. Conveyor belts for transferring raw materials must be properly covered.
 11. Cement handling area must be provided proper channelization of air borne particles of cement and trapping in the bag houses.
 12. All vehicles including vehicles carrying raw material/ ready mix concrete cleaned and wheel washed before leaving the site of RMC unit.
 13. All vehicles carrying raw materials like aggregates, dust, cement etc must be fully covered and protected so as to ensure dust from these materials does not become air borne during transportation.
 14. Raw material especially stone dust stored at site must be fully covered / keep wet all the time to avoid dust particles air borne.
 15. Roads, inside the RMC plant must be paved with cement concrete /asphaltic concrete and cleaned on regular basis. No dust to be allowed to be deposited on roads.
 16. Fine nozzle system to be provided for sprinkling the water to maintain the area dust free. No contribution of dust shall be allowed from the RMC plant to ambient air quality of atmosphere i.e Zero tolerance.
 17. Every worker working at RMC plant site must be provided with dust mask to prevent inhalation of dust particles.
 18. Unpaved surfaces and area with loose soil must be adequately sprinkled with water to keep wet always.
 19. Quantity of Effluent Discharge from the unit shall not exceed (i) Trade Effluent Nil (ii) Sewage / Domestic Effluent 60 Litres/ Day.
 20. The Consentee shall install Emission Control System(ECS) Dust contentment cum supersession system of the equipment, shall properly operate and maintain the ECS to meet the prescribed standards of the Suspended Particulate Matter (SPM) contribution value at a distance of 40 meters from a controlled isolated as well from a unit located in a cluster should be less than 600 g/Nm³. The measurements are to be conducted at least twice a month for all the 12 months in a year. No bypass stack/ arrangement shall be provided. Records /Logbook shall be maintained for the operation of the ECS and shall be produced during the inspection of DPCC official(s). The Consentee shall provide and maintain ports in the Stack(s) / Chimney(s) and facilities such as ladder, platform etc in good condition for monitoring of the emissions.
 21. Capacity of the Diesel Generator Set (s) installed in the unit 320,500,600 KVA.
 22. The Consentee shall submit application for Renewal of Consent to operate, one month in advance of the expiry date of this Consent Order.
- In the event of any information furnished by the Consentee found to be false OR in case of failure to comply with any of the above mentioned consent conditions, consent granted through this Consent Order shall be deemed to be revoked without any notice and necessary action as per law shall be taken, which may include closure of the unit and prosecution for wrong declaration.

Notwithstanding anything contained in this consent order, Delhi Pollution Control Committee, reserves its right to review any / or all the conditions imposed herein above and to make such variations as deemed fit for the purpose of enforcement of the Air (Prevention and Control of Pollution) Act, 1981, as amended to date and the Water(Prevention and Control of Pollution) Act, 1974, as amended to date.

The Consent granted to the Consentee is to ensure control of pollution from the premises of the unit in accordance with various Pollution Control Laws and in no way confers the right to the Consentee / unit to exist in violation of other laws and statutory provisions including the Master Plan of Delhi.

This issues in view of the Office Order No. F.No.DPCC/Consent/2017/569-580 Dated 31.05.2017 regarding processing of the consent cases.

RECEIVED - DMICDC

11 MAY 2017

DMICDC LTD.

विषय: Plans in respect of Exhibition and Convention Centre (ECC) at Sector-25, Dwarka.
(Conceptual stage).

संदर्भ : DUAC's letter of even number dated 08.03.2017, 07.04.2017 & DMICDC's letter no. nil
dated 09.02.2017, 28.02.2017, 16.03.2017, 23.03.2017.

महोदय,

उक्त प्रस्ताव पर आयोग की दिनांक 3 मई, 2017 को आयोजित बैठक में विचार किया गया था।
आयोग की प्रेक्षाएं तथा निर्णय इस प्रकार हैं:

"Decisions :

- Concept of the overall proposal received directly from DMICDC was found acceptable by the Commission.
- The matter relating to referring the formal proposal (layout plan & building plans) to the Commission for its approval to be separately taken up with the South DMC.

Observations :

1. The proposal submitted directly by the proponents for conceptual consideration was considered by the Commission at its meeting held on March 31, 2017. The Concept of the zoning was found acceptable, with certain observations.
2. The matter was again considered in view of letter no. CEO/DMICDC/39/2017 dated April 25, 2017 received from Delhi Mumbai Industrial Corridor Development Corporation (DMICDC) wherein clarifications were given. A powerpoint presentation in the matter was made by the proponents in context of the earlier observations of the Commission. The proposal was scrutinized and the concept of the proposal was found acceptable.
3. A letter no. D/144/EE(B)HQII/SDMC/17 dated 07.04.2017 had been received in the matter from South DMC stating that the layout plan has been approved by the Standing Committee of South DMC vide resolution no. 499 dated 23.02.2017 subject to certain conditions. A copy of layout plan of the proposal has been forwarded to the Commission for information with the said letter. One of the condition indicated on the layout plan was "7. As per circular vide no. TP/G/SDMC/2016/D-8368 dated 21.06.2016 of SDMC, all the NOCs/clarification/clearance from all external agencies including ownership, development control norms, right of way of

adjoining/approach roads, change of landuse etc. are to be obtained by the Building Department at the time of sanction of building plans."

4. The Commission observed that as per section-12 of the Delhi Urban Art Commission Act 1973 (1 of 1974), every local body in Delhi before according approval in respect of any building operations/proposal etc. has to refer the matter to DUAC for scrutiny and the decision of the Commission shall be binding on the local body.
5. The Commission observed that in view of point no.4 above, sending of layout plan for information of the Commission is not in consonance with the provisions of the DUAC Act. The layout plan and building plans required to be formally referred to the Commission for its scrutiny before according the approval by the local body. It was accordingly decided to take up the matter with the South DMC.

1E) Tree Felling details submitted to DCF

IICC/ MD/2018/ 10

26.07.2018

To,
Sh. V. Ramesh,
Project Director,
EPCC (L&T)
IICC Dwarka

Sub: Regarding compliance of Tree Felling Permission (issued by DCF/West on 04.04.2018 & 24.05.2018) and inventory of balance Trees at IICC Dwarka site.

Ref: (i) Joint Inspection Report of EPCC, PMC & DMICDC dated 21.03.2018.
(ii) Tree felling permission for 162 trees issued by DCF/West dated 04.04.2018, forwarded vide IICC's e-mail dated 05.04.2018.
(iii) Tree felling permission for 1799 trees issued by DCF/West dated 24.05.2018, forwarded vide IICC's e-mail dated 25.05.2018

Dear Sir,

This is with reference to the felling of trees for development of India International Convention Centre, Dwarka. The EPCC, PMC & DMICDC had carried out joint inspection of IICC site on 21.03.2018 and prepared an inventory of project site. During joint inventory total 1961 trees have been reported at IICC site (ref-i) and same was handed over to EPCC (L&T). The Deputy Conservator of Forest/West had issued Tree felling permission for 162 trees on 04.04.2018 and for balance 1799 trees on 24.05.2018, the tree felling permissions along with prescribed formats have forwarded to EPCC & PMC vide IICC e-mail dated 05.04.2018 & 25.05.2018 respectively. (ref-ii & iii). Even after lapse of more than two months the compliance / status report of tree felling has not been submitted by EPCC & PMC.

As per the conditions stipulated in the tree felling permission dated 04.04.2018 & 24.05.2018 (ref- ii & iii), the reconciliation statement of trees felled, progress report of tree felling & transportation of logs has to be submitted to Deputy Conservator of Forest/West.

The EPCC & PMC are hereby directed to submit the (i) details of trees felled (with details of s.no. of trees in the authenticated list as forwarded vide e-mail dated 05.04.2018 & 25.05.2018 (ref-ii & iii) in the prescribed format (ii) progress report of tree felling (iii) details of logs disposal including its transportation (iv) schedule for balance tree felling under phase-I of IICC latest by 26.07.2018.

For development & implementation of IICC Dwarka project site total 1961 trees have been handed over to EPCC on 21.03.2018, the EPCC (L&T) & PMC (AECOM) are hereby directed to immediately conduct joint enumeration of balance trees at site on completion of tree felling under phase-I and submit detailed inventory of balance trees along with reference photographs & GPS coordinate.

Yours Sincerely

(Prashanth Kumar Balsavar)
Managing Director & CEO

Sub: Revalidation of permission for felling trees for construction of International exhibition cum convention center, at Dwarka Sec-25, New Delhi

Ref: 1. F.103/WFD/COT/16-17/1067-73 Dated 25/05/2018

2. F.103/WFD/COT/16-17/26-32 Dated 04/04/2018

3. Notification dated 16/08/2017

Sir,

May kindly refer to the permission letter issued from this office for felling of 1799 Nos. of trees and then for felling of 162 nos. of trees to DMICDC for construction of International Exhibition Cum convention Center, Dwarka sec-25, New Delhi. Please refer to the condition No-03 of the permission in which the validity of the permission was 90 days and now that has been expired.

As per your request letter received in this office regarding granting of revalidation of the permission issued from this office, the permission has been revalidated from this office for a further period of 90 days from the date of issue of this letter.

It is pertinent to mention here that the terms and conditions of the previous permission issued from this office and the terms & conditions of the notification will remain effective while carrying out felling operation.

Yours faithfully

ARTICLE X MISCELLANEOUS

10.1 Notices

- a) Any notice under the terms of this Lease Agreement shall be in writing signed by any authorised person and may be served by sending it through registered post, facsimile copy, e-mail or any other mode, as deems fit, to the address mentioned below:

In case of Lessor:

The Secretary,
Department of Industrial Policy and Promotion,
Ministry of Commerce and Industry,
Government of India,
Udyog Bhawan, New Delhi- 110011

In case of Lessee:

The Managing Director
India International Convention and Exhibition Centre Ltd.
Room No. 452A, Ministry of Commerce & Industry, DIPP,
Udyog Bhawan, New Delhi - 110011

or to such other address or facsimile number as may from time to time be designated by notice hereunder.

- b) Any such notice shall be in the English language and shall be considered to have been given at the time when actually delivered if delivered by hand, or upon the next working day following sending by facsimile or in any other event within five (5) days after it was mailed in the manner hereinbefore provided.

10.2 Governing Law, Dispute resolution and Jurisdiction

- a) This Lease Agreement shall be governed by and construed in accordance with the laws of India.
- b) In the event of any Dispute or difference between the parties hereto, such disputes or differences shall be resolved amicably by mutual consultation. If such resolution is not possible, then unresolved dispute or differences shall be referred to arbitration of one of the arbitrator to be appointed by the Secretary, in charge of Bureau of Public Enterprises. The provisions of Arbitration & Conciliation Act, 1996 (no. 26 of 1996) shall not be applicable to the Arbitration. The venue of such arbitration shall be at Delhi or any other place, as may be decided by arbitrator. The language of arbitration proceedings shall be in English. The arbitrator shall make a reasoned award (the "Award") which shall be final and binding on the parties. However, any party aggrieved by such award may make a further reference for setting aside or revision of the award to the Law Secretary, Department of Legal Affairs, Ministry of Law & Justice, Government of India. Upon such reference the dispute shall be decided by the Law Secretary or Special Secretary/Additional Secretary, when so authorized by the Law Secretary, whose decision shall bind the parties finally and conclusively. The cost of the arbitration shall be shared equally by the parties to the agreement. However, expenses occurred by each party in connection with preparation, presentation should be borne by the parties itself.
- c) Pending the submission of and/ or decision on a dispute, difference or claim or until the arbitral award is published; the Parties shall continue to perform all of their obligations under this Agreement without prejudice to a final adjustment in accordance with such award.
- d) The Courts at Delhi shall have jurisdiction over this Lease Agreement.

10.3 Amendment

No variation, waiver, amendment or modification of any of the terms of this Lease Agreement shall be valid unless in writing and signed by both Parties.

BRIJESH KUMAR SHARMA
Under Secretary
Ministry of Commerce & Industry
Department of I P & P
Udyog Bhawan, New Delhi

Managing Director, IICC Limited

10.4 No Waiver

The failure of a Party to insist in one or more instances upon the strict performance of any of the provisions of this Lease Agreement or to take advantage of any of its rights hereunder shall not be construed as waiver of any such provisions or relinquishment of any such rights but the same shall continue in full force and effect.

10.5 Severability

The invalidity or enforceability, for any reason, of any part of this Lease Agreement shall not prejudice or affect the validity or enforceability of the remainder. For abundant caution, it is expressly clarified that if any provisions of this Lease Agreement are declared to be invalid, unenforceable or illegal by any competent arbitral tribunal or court, such invalidity, unenforceability or illegality shall not prejudice or affect the remaining provisions of this Lease Agreement, which shall continue in full force and effect.

10.6 Language

The language and all documents, notices, waivers and any other written communication or otherwise between the Parties, in connection with the Lease Agreement shall be in English.

10.7 Indemnity

If for any reason or resulting from any cause whatsoever, any statement, covenant or representation set forth herein is found to have been materially incorrect, untrue when made, in breach or fails to prove to be true, and if any debt, liability or other obligation of any kind is found to exist, the party making such representation or warranty shall be fully liable to the other party for any and all liability, damage, costs and expense, including attorney fees, arising from such misrepresentation, breach or incorrect statement.

Sub: Sanction under Clause 336 of Delhi Municipal Corporation Act.

सहायक अभियन्ता (भवन)

Dear Sir/Madam

With reference to your application dated **08.06.2018** for the grant of sanction to erect/re-erect / addition / alteration in the building to carry out the development specified in the said application relating to Plot No. **India International Convention & Exhibition Centre at Dwarka, New Delhi.** I have to state that the same has been sanctioned on **06.07.2018** by the SOUTH DELHI MUNICIPAL CORPORATION subject to the following conditions and corrections made on the plans: Officer/D. U. Art Commission be obtained before issue of Completion Certificate.

1. The plans are valid up to **10th** day of month **July** year **2023**.
2. The construction will be undertaken as per sanctioned plan only and no deviation from the bye-laws will be permitted without prior sanction. Any deviation done against the bye-laws is liable to be demolished and the supervising Architect, engaged on the job will run the risk of having his license cancelled.
3. Violation of building bye-laws will not be compounded.
4. It will be duty of the owner of the plot and the Architect preparing the plan to ensure that the sanctioned plans are as per prevalent building bye-laws. If any infringement of the bye-laws remain unnoticed the SOUTH DELHI MUNICIPAL CORPORATION reserves the right to amend the plans as and when the infringement comes to its notice and SOUTH DELHI MUNICIPAL CORPORATION will stand indemnified against any claim on this account.
5. The party shall not occupy or permit it to occupy the building or use permit the building or part there of affected by any such work until occupancy certificate is issued by the sanctioning Authority.
6. SOUTH DELHI MUNICIPAL CORPORATION will stand indemnified and kept harmless from all proceedings in courts and before other authorities of all expenses/losses/claims which the SOUTH DELHI MUNICIPAL CORPORATION may incur or become liable to pay as a result or in consequences of the sanction accorded by it to these building plans.
7. The door and window leaves shall be fixed in such a way that they shall not when open project on any street.
8. The party will convert the house into dwelling units of each floor as per the approved parameters of the project and shall use the premises only for residential purpose.
9. The building shall not be constructed within minimum mandatory distance as specified in Indian Electricity Rules and as per the requirement of Delhi Vidut Board from the voltage lines running on any side of the site.
10. The land left open on consequences of their enforcement of the set back rule shall form part of the public street.

11. The thickness of outer walls will be maintained at least 0.23mt. (9").
12. The basic levels should be got ascertained from the concerned at the site of the construction.
13. The owner will display boards of minimum size of 3 ft. X 4ft. indicating the following:
 - (i) Plot No. and Location
 - (ii) Name of lessee / owner
 - (iii) Use of the property as per lease deed
 - (iv) Date of sanction of Building plan with No.
 - (v) Sanction Valid up to
 - (vi) Use of different floors and areas sanctioned
 - (vii) Name of Architect & his address
 - (viii) Name of the contractor & his address
14. The provision of the display board on the construction site is a mandatory requirement and non-compliance of the same will invite a penalty of Rs. 5000/-.
15. It will be ensured that the construction / demolition work shall be carried out in such a manner that no disturbance/nuisance is caused to residents of the neighborhood.
16. It will be ensured by the owner and the Architect that during the construction the building plans sanctioned shall satisfy all the Environmental Conditions for Buildings and Construction of Chapter 3, Annexure XIV of these Bye Laws and as amended from time to time or any specific orders issued by the Govt.
17. Intimation of Completion of work up to plinth Level, Plinth Level inspection and the issue of Plinth level Inspection shall be done as per procedure laid down in the Chapter 2 of these bye-laws.
18. The building shall be constructed strictly in accordance with the sanction plan as well as in accordance with the certificate submitted jointly by the owner/Architect/Structural Engineer for safety requirement as stipulated in Chapter 9 of these Building Bye-Laws, and the structural Design including safety from any natural hazards duly incorporated in the design of the building as per the Government Of India Notification issued time to time and Annexure VII of these Bye Laws.
19. The mulba during the construction will be removed on weekly basis. If the same is not done, in that case the local body shall remove the mulba and the cost shall be borne by the owner of the plot.
20. During construction, it is mandatory on the part of the owner to properly screen the construction site of the main road by means of erecting a screen wall not less than 8 ft. in height from ground level which is to be painted to avoid unpleasant look from the road side. In addition to this a net or some other protective material shall be hoisted at the facades or the building to ensure that any falling material remains within the protected area.
21. Noise related activities will not be taken up for construction at night after 10.00 PM.
22. (i) Every builder or owner shall put tarpaulin on scaffolding around the area of construction and the building. No person including builder, owner can be permitted to store any construction material particularly sand on any part of the street, roads in any colony
- (ii) The construction material of any kind that is stored in the site will be fully covered in all respects so that it does not disperse in the air in any form.
- (iii) The construction material and debris shall be carried in the trucks or other vehicles which are fully covered and protected so as to ensure that the construction debris or the construction material does not get dispersed into the air or atmosphere, in any form whatsoever.
- (iv) The dust emissions from the construction site should be completely controlled and all precautions taken in that behalf.

Page2

- (v) The vehicles carrying construction material and construction debris of any kind should be cleared before it is permitted to ply on the road after unloading of such material.
 - (vi) Every worker working on the construction site and involved in loading, unloading and carriage of construction material and construction debris shall be provided with mask to prevent inhalation of dust particles.
 - (vii) Every owner and or builder shall be under obligation to provide all medical help, investigation and treatment to the workers involved in the construction of building and carry of construction material and construction debris relatable to dust emission.
 - (viii) It shall be the responsibility of every builder to transport construction material and debris waste to construction site, dumping site or any other place in accordance with rules and in terms of this order.
 - (ix) All to take appropriate measures and to ensure that the terms and conditions of the earlier order and these orders should strictly comply with by fixing sprinklers, creations of green air barriers.
 - (x) Compulsory use of wet jet in grinding and stone cutting.
 - (xi) Wind breaking walls around construction site.
 - (xii) All efforts to be made to increase the 'tree cover' area by planting large number of trees of various species depending upon the quality content of soil and other natural attendant circumstances.
 - (xiii) All the builders who are building commercial, residential complexes which are covered under the EIA Notification of 2006 shall provide green belt around the building that they construct.
23. The sanctioning authority approves Architectural Drawings / Development Control norms with respect to the Building Bye Laws and Master Plan provisions only. The technical drawings/documents submitted by the owner/consultant/Architect/Engineer/Structural Engineer / Landscape Architect / Urban Designer/Engineer for Utility Services are considered as part of the records/information supporting the building permit only. The responsibility of the correctness of information/application of technical provisions fully vests with the owner/consultant/ Architect/Engineer/Structural Engineer/Landscape Architect /Urban Designer/Engineer for Utility Services and shall be liable as per laws.
24. No puncture, perforation, cutting, chiseling, trimming of any kind for any purpose are permitted in the structural members (beams / columns) submitted by the structural engineer as structural drawing for building permit in accordance with the relevant structural codes.
25. The sanction will be void ab initio if any material fact has been suppressed or mis-represented or if auxiliary conditions mentioned above are not complied.
26. All the conditions of CFO communicated vide their letter No.F.6/DFS/MS/BP/2018/194 dated 18.06.2018 shall be adhered to.
27. Approval from DCP(Licensing), Delhi Police under the Cinematography Act, before /during execution of construction work.
28. All the conditions of the Ministry of Environment and climate change to be adhere.

**P.No. India International Convention & Exhibition Centre at Dwarka,
New Delhi.**

Encl: One set of sanctioned plan.

Yours faithfully

1H) Storm water drainage layout by SDMC – SWS

SOUTH DELHI MUNICIPAL CORPORATION
OFFICE OF THE EXECUTIVE ENGINEER (P) SWS
19th FLOOR, DR. S.P.M. CIVIC CENTRE, MINTO ROAD
NEW DELHI - 110002

No. F.1 (05) 2017 / EE(P)SWS/ 620
2018

Dated: 31/8/18

To,

CEO-MD, DMICDC

Room no 341-B, 3rd Floor, Hotel Ashok

Diplomate Enclave SO-B, Chanakya Park, New Delhi-110021

Subject: Storm Water Drainage Scheme for Development of Exhibition and
Convention Centre (ECC) in Sector 25 Dwarka New Delhi.

Ref.No. Letter dated 25-4-2017 and further reply dated 21.6.2018 & 18.8.2018

The SWD scheme of the above referred area has been scrutinized and approved subject to the following terms and conditions.

1. All the G.T.S. levels indicated in the hydraulic chart/plan shall be strictly adhered to.
2. The correctness of levels mentioned in the proposed hydraulic design chart/plans shall be sole responsibility of the developing agency.
3. The FSL of the proposed drain shall be above the FSL of the existing drain/ outfall nallah.
4. Adequate number of gully grating chambers as per CPWD specifications shall be provided for easy access of storm water in the proposed drains.
5. Road cutting permission (wherever) required to be obtained from Road Maintaining authority.
6. Proper outfall structure shall be provided at the connection point of the proposed drains with the existing drains/ nallah.
7. The developing agency shall take prior written permission from the maintaining authority of the area before making connection into the existing drains/ nallah.
8. RCC NP2/NP3/NP4 class pipe ISI marked must be provided as per site loading and bedding conditions. Latest I.S. Code 458-1988 for RCC pipe may be followed.
9. Clear earth cushion over the pipe must be 1.0M minimum and. Where the cushion is less than 1.0M the pipe shall be encased fully with C.C. 1:3:6.
10. Wherever the drain are trapped in the pipe drain silt pit with vertical bars shall be provided at the connection point, so that the floating material do not enter in the pipe drain.
11. Brick masonry chamber/ manholes as per CPWD specifications shall be constructed at straight reaches, at junction points of two or more drains and at the change of Dia/Size. The centre to centre distance of chambers/ manholes shall be as per CPWD Specification / norms i.e. Max 20 Mtr.

12. The existing drains/ nallah into which the connection is proposed shall be made functional before making connection into it.
13. The developing agency shall ensure that in no case the S.W. system is connected with sewerage system.
14. It will be ensured by the developing agency that none of the underground utility services are damaged while executing the work. If any damage is caused to underground utility work services, it shall be responsibility of the developing agency to rectify the same at their own cost or get it done from the concerned deptt. at their cost.
15. No discharge from any other area is allowed in the scheme.
16. The proposed pipe drains shall be so laid that it is away from building line and enables installations of sewer cleaning machine and other equipment for cleaning/Desilting / maintenance operations.
17. No drain shall be covered. If it is to be covered then the revised proposal should be submitted to this office for further approval.

18. (i) Work should be started from outfall drain.
- (ii) Revision of scheme if found unfeasible at site.
- (iii) Sufficient capacity of pumping arrangement should be provided and maintain at site at their own cost.
- (iv) Necessary permission should be obtained by the applicant from the concerned authorities.

All the general conditions attached..... shall be strictly adhered to

EX. ENGINEER (P) SWS

SOUTH DELHI MUNICIPAL CORPORATION
OFFICE OF THE EXECUTIVE ENGINEER (P) SWS
1st FLOOR, DR. S.P.M. CIVIC CENTRE, MINTO ROAD
NEW DELHI-110002

No. F 1 (05) ²⁰¹⁷/₂₀₁₈ / EE(P)SWS/ 620

Dated: 31-8-2018

GENERAL CONDITION S.W.D. SCHEME

1. Adequate sizes of culverts shall be provided corresponding to passing of drains on all road crossing. Minimum free board of 15CM shall be provided under RCC slabs.
2. S.F.R.C. manhole covers with frames shall be provided as approved by Competent Authority.
3. All manhole frame and cover shall be provided with chain and hook arrangement.
4. A minimum free board of 8Cms shall be provided in all drains upto 30 cm water depth. For drains of more than 30 Cms water depth 15 Cms and above free board shall be provided as per requirement.
5. No natural water course should be closed unless suitable diversion is made to the satisfaction of this department.
6. All the manhole/ chambers must be plastered inside and outside with neat cement punning in 1:4 (1 cement: 4 coarse sand).
7. All the built up drains shall be in brick masonry in cement mortar (1:4) and inside surface plastered and finished with a floating coat of neat cement punning.
8. All the drains shall be dressed/ sloped in such a way that storm water flows in a natural way towards the nearest drain / road gully chamber.
9. Responsibility of crossing the proposed drains over/ under the existing underground services shall lie with the developing agency.
10. Completion report along with the plan must be sent to this office after completion of the work.
11. No sludge discharge from the adjoining area will be allowed in this storm water drain.
12. A silt pit will be constructed at the junction of every open and covered storm water drain and the same must be provided with vertical grating in order to stop the floating material entering into the covered S.W. Drain.
13. Zonal Engineer concerned should be informed as soon as the work is taken in hand so that inspection can be arranged. The sanctioned plan should be made available on site at the time of inspection. The developing agency shall provide all reasonable facilities for the inspection of work done during execution.
14. No line should be covered atleast 7 days clear notice given to the concerned Zonal Engineer Works of the area.
15. In service lanes kerb and channel shall be provided.
16. The developing agency shall provide interim pumping arrangement to pump out the storm water till the proposed internal storm water drains are commissioned. The developing agency shall be fully responsible for flooding, if any in the area for the period the drains constructed and commissioned.

EXECUTIVE ENGINEER (P) SWS

ANNEXURE – 2

(List of key activities carried out at IICC site)

- 2A) *Site barricading*
- 2B) *First aid, water and sanitation facilities during construction*
- 2C) *Proposed labor colony facilities*
- 2D) *Proposed topsoil preservation yard at site*
- 2E) *Covering of loaded vehicles*
- 2F) *Dust suppression*
- 2G) *Construction and demolition waste management yard*
- 2H) *Issuance of PPEs and EHS roles & responsibilities at site*
- 2I) *Receipt of Sword of honor award to IICC site by British Safety Council*

Annexure - 2 provides the list of key activities carried out at India International convention & Expo center phase-1 construction site for the period October 2018 - March 2019 in line with Environmental Clearance (EC) report requirements. List of Environmental clearance report requirements are provided below,

- 2A) Site barricading
- 2B) First aid, water and sanitation facilities during construction
- 2C) Proposed labor colony facilities
- 2D) Proposed topsoil preservation yard at site
- 2E) Covering of loaded vehicles
- 2F) Dust suppression
- 2G) Construction and demolition waste management yard
- 2H) Issuance of PPEs and EHS roles & responsibilities at site
- 2I) Receipt of Sword of honor award to IICC site by British Safety Council

2A) Site barricading

Entire site periphery has been erected with 6 m / 3 m barricading to prevent air and noise pollution during construction (depending upon the existing DDA boundary wall height). Actual photographs of barricading around the site are provided as per the mark-up below.

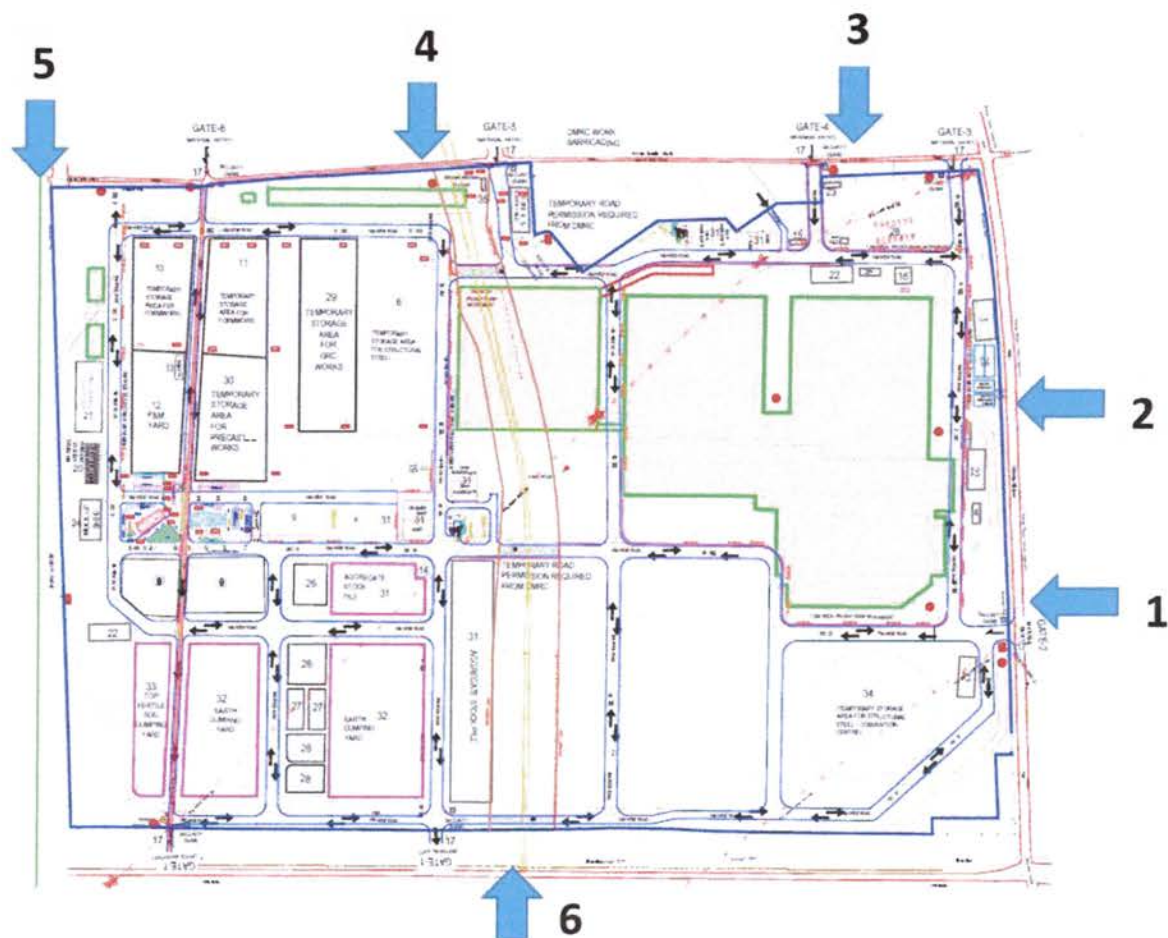

Figure 1: Site Master Plan indicating Viewpoints for the Photographs

Figure 2: Photograph of barricade at Viewpoints 1, 2

Figure 3: Photograph of barricade at Viewpoints 3, 4 & 5

Figure 4: Photograph of barricade at Viewpoint 6

2B) First aid, water and sanitation facilities during construction

Keeping in view, the no. of workforce at such large site, various first-aid medical facilities have been provided so as to attend to any primary and immediate medical needs of construction workforce. A registered Resident medical officer (RMO) is available on site during construction working hours to take care of any human health care requirement during ongoing works at site.

- Certified first aider – 3 nos.
- Trained first aiders – 38 nos.
- First-aid Kits – 14 nos.
- Patient beds – 2 nos.
- Stretchers – 3 nos.
- Oxygen cylinders – 2 nos.
- Ambulances – 2 nos.

Photographs of first aid facilities & ambulance are provided below:

Figure 5A: First Aid room with First-Aid Facilities at site

(Clockwise from left top: 1st plate - First aid room; 2nd plate – Certified first aider; 3rd plate – Stretcher; 4th plate – First-aid kits; 5th plate – Oxygen cylinder; 6th plate – Patient bed)

Figure 5B: Ambulance provided at site

Further, proper water supply and sanitary facilities are provided at various locations through-out the site for the convenience of the construction workforce. Clean drinking water facilities are also provided. In addition, during summer months, the workforce is provided with Glucose/ Electral.

Figure 5C: Drinking water facilities at site

Figure 5D: Distribution of Glucose water at site (during summer)

Sanitation facilities having adequate numbers of toilets and urinals are provided in our bid to maintain the hygienic condition and to meet sanitation requirements of the construction workforce. The table below outlines the numbers of such facilities at specific site locations (in addition to those provided in labor colonies).

Location	Mobile Toilet & Urinal
Convention centre & car parking area	10 nos.
Ex-hall-01, Foyer-01 & Service gallery	10 nos.
Ex-hall-02 & Foyer-02	10 nos.
Steel Yard	02 nos.
Form work /ESS building /P&M work-shop area	10 nos.
DG building area	02 nos.
Ex-Hall-03/m1 B/P area	06 nos.
Total	50 nos.

Figure 5E: Sanitation facilities for construction workmen

2C) Proposed labor colony facilities:

Labor Colony(ies) have been established for construction workforce having all necessary infrastructure facilities like Toilets, bathing, STP, safe drinking water, Kitchen / canteen and medical facilities etc. Below Table provides the details of Labor Colony facilities for construction workers. These colonies or blocks are constructed after names of major Indian rivers, namely, Ganga, Yamuna, Kaveri and Krishna, each consisting of different sheds with different capacities.

Work Men Colony – I (Ganga Block)	S. No.	Description	Capacity
	1	WM sheds (G+1) 36 X 12 m – 1 #	432 Nos
	2	WM sheds (G+1) 36 X 7.44 m – 2 #	504 Nos
	3	Toilets	72 Nos
	4	Bathroom	88 Nos
	5	Urinals	52 Nos
	6	Kitchen	60 Nos

-2 Work Men Colony Yamuna Block)	S. No.	Description	Capacity
	1	WM sheds (G+1) 30 X 6 m – 1 #	180 Nos
	2	WM sheds (G+1) 36 X 7.44 m – 1 #	252 Nos
	3	WM sheds (G+1) 30 X 14.88 m – 1 #	420 Nos
	4	Toilets	100 Nos
	5	Bathrooms	50 Nos
	6	Urinals	50 Nos
	7	Kitchen	50 Nos

-3 Work Men Colony – 3 (Kaveri Block)	S. No.	Description	Capacity
	1	WM sheds (G+1) 30 X 6 m – 2 #	360 Nos
	2	Toilets	25 Nos
	3	Bathroom	28 Nos
	4	Urinal	20 Nos
	5	Kitchen	25 Nos

-4 Work Men Colony (Krishna Block)	S. No.	Description	Capacity
	1	WM sheds (G+ 2)– 4 #	2592 Nos
	2	Toilets	120 Nos
	3	Bathroom	132 Nos
	4	Urinals	120 Nos
	5	Kitchen	70 Nos

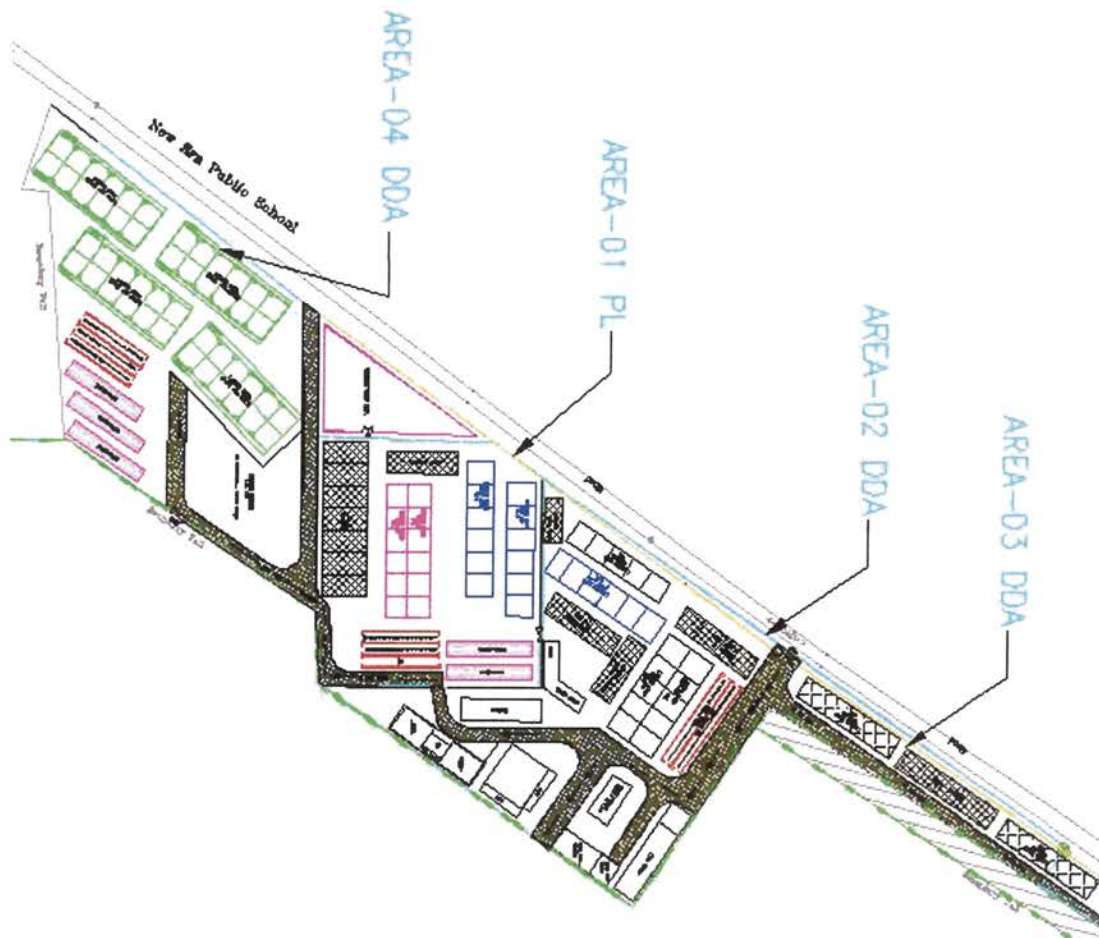

Figure 6: Master plan of Proposed Labor Colony Facilities

Figure 6A: Photo showing labor workmen blocks

Figure 6B: Workmen colony near project site – Yamuna Block; Krishna Block

Figure 6C: Photo showing drinking water and sanitation facilities at workmen colony

Figure 6D: Photo showing RO-based drinking water plant and canteen facility at workmen colony

2D) Proposed topsoil preservation yard at site

Fertile soil of top 200mm has been removed before excavation & stored separately in the proposed topsoil preservation yard in the site and since topsoil is rich in organic content it is planned to reutilize the Topsoil for landscaping as part of EPC contractor's scope of works. Estimated quantity of Topsoil preserved till the period of this report (i.e., Oct. 2019 to Mar. 2020) is 40,000 cum (approx.). As the landscape works will be initialized in due course of execution activities, this preserved Topsoil shall be made use of.

Proposed location of Top soil preservation yard is shown in the below figure.

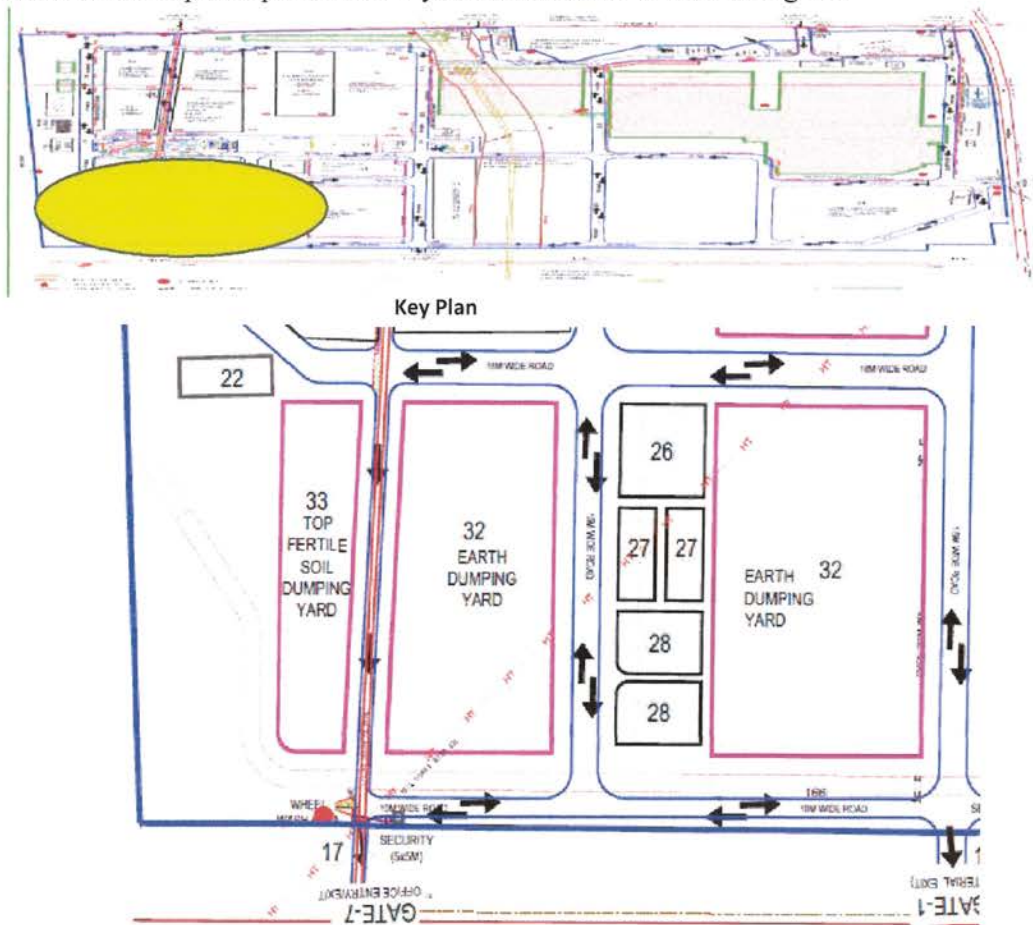

Figure 7: Proposed top soil preservation yard at site

In view of the fact that covering top soil with impermeable materials (plastic/tarpaulin sheet etc.) leads to significant detrimental impacts on its physical, chemical and biological properties, including drainage characteristics thereby adversely affecting overall fertility of soil, it has been envisaged to grow temporary vegetation on the preserved top soil yard to prevent from erosion.

Figure 8: Signage provided at proposed Topsoil yard; Preservation with temporary vegetation

2E) Covering of loaded vehicle

In order to prevent air pollution due to dust from the loaded vehicle, covering of loaded vehicles with tarpaulin sheet is being practiced at the construction site.

Figure 9: Covered Loaded Vehicle to prevent air pollution

2F) Dust suppression

To control the air pollution due to the movement of the vehicles, continuous sprinkling of water has been carrying out in the construction site. Also, wheel wash areas have been provided so as to clean the mud/slurry deposited on the tyres of construction vehicles thereby preventing dust spread in the adjacent areas.

Figure 10A: Dust Suppression through sprinkling of water

Figure 10B: Wheel-wash area to clean construction vehicles' dust/mud-laden tyres

2F) Construction and demolition waste management yard

Because due care is being taken at planning stage itself, the construction waste generation is meagre even though a significant construction activity has been undertaken during the period of this report. Very small amount of construction waste such as concrete, steel scrap etc. generated is being utilized in-house primarily in enabling works, for e.g., internal road leveling, pothole filling, safety barricading and other miscellaneous works. Further, the construction and demolition waste which might be generated during further course of superstructure construction activities, will be handled as per schedule I of the Construction & Demolition Waste Rules, 2016.

Figure 11: Area allocated for temporary storage of construction & demolition waste

2H) Issuance of PPEs and EHS roles & responsibilities at site

The dusk masks, safety shoes, visibility jackets and other PPEs (Personal Protective Equipments) are being provided to all site workers. An indent slip is maintained on issuance of such items to them. Sample of few indent slips is pasted as below for ready reference. Also, the cards handing-over EHS (Environment, Health & Safety) is being done for L&T's site staff members so as to inculcate roles and responsibilities directly linked to performance.

L&T Construction's Buildings & Factories IC has won the prestigious Sword of Honor for 10 of its projects from the British Safety Council for the 4th consecutive year. IICC project is one of the recipients of this coveted award. In 2018-19, 46 organizations (84 establishments) received this prestigious award globally by achieving the maximum five-star rating (minimum score of 92%) in the British Safety Council's health and safety management audit scheme during the period August 2018 – July 2019.

Subject: Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi - Transfer of Environment Clearance by M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd to 'India International Convention and Exhibition Centre Limited' (IICC Limited) - reg.

Sir,

This has reference to your letter No. CEO/DMICDC/2018 26th July, 2018, submitted to this Ministry for Transfer of Environment Clearance issued vide letter F.No. 21-102/2017-IA-III dated 29.08.2017 in favour of M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd to M/s India International Convention and Exhibition Centre Limited in terms of the provisions of the Environment Impact Assessment (EIA) Notification, 2006 under the Environment (Protection) Act, 1986.

2. In this regard, referring to the clause related to transferability of Environment Clearance as per section 11 of EIA Notification, 2006, the project proponent i.e. DMICDC requests for the transfer of EC for Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi to the 'India International Convention and Exhibition Centre Limited' (IICC Limited) for taking up the full responsibility of complying with all the conditions stipulated in the Environment Clearance issued by MoEF&CC vide F. No. 21-102/2017-IA.III dated 29.08.2017 for the said project. IICC's request letter along with affidavit for transfer of the EC for the above project and a 'No Objection Certificate (NOC)' for the transfer of EC to IICC Limited by DMICDC is submitted with the application.

3. It is noted that M/s India International Convention and Exhibition Centre Limited is registered under the provisions of Companies Act, 2013, having its registered office at Room No. 452A, Ministry of Commerce & Industry, DIPP, Udyog Bhawan, New Delhi - 110 001 under Department of Industrial Policy & Promotion for implementation & development of Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi. M/s India International Convention and Exhibition Centre Limited has submitted an affidavit to abide by the all conditions/clauses prescribed in the Environment Clearance issued vide letter F.No. 21-102/2017-IA-III dated 29.08.2017 in favour of M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd.

Page 1 of 2

4. This Ministry has no objection to transfer the Environment Clearance accorded to the project 'Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka', New Delhi in faovur of M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd vide letter F.No. 21-102/2017-IA-III dated 29.08.2017 to M/s India International Convention and Exhibition Centre Limited, on the same terms and conditions under which prior environmental clearance was initially granted, and for the same validity period.

5. All the other conditions stipulated in the MOEF&CC letter F. No. 21-102/2017-IA.III, dated 29.08.2017 shall remain unchanged.

6. This issues with the approval of the Competent Authority.

Subject: Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi by M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd – Environmental Clearance - reg.

Sir,

This has reference to your online proposal No. IA/DL/NCP/66197/2017 dated 14th July, 2017 submitted to this Ministry for grant of Environmental Clearance (EC) in terms of the provisions of the Environment Impact Assessment (EIA) Notification, 2006 under the Environment (Protection) Act, 1986.

2. The proposal for grant of environmental clearance to the project 'Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi promoted by M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd. was considered by the Expert Appraisal Committee (Infra-2) in its meeting held on 26-28 July, 2017. The details of the project, as per the documents submitted by the project proponent, and also as informed during the above meeting, are under:-

- (i) The project is for development of an Exhibition-cum-Convention Centre (ECC) on Plot/Survey/Khasra No. 16, 25, 5, 6/1, 6/2, 21, 1, 10, 11/1, 2, 9/1, 8/2, 12/1, 12/2, 8/1, 13, 18/1, 18/2, 7/2, 14, 17, 24/1, 15/2, 16/1, 25, 20/2, 21, 1, 2, 3, 8, 13/1, 13/2, 7, 9, 11, 12, 18, 19, 22, 23, 4, 17/1, 17/2, 24, 7/1, 6, 15/1, 15/2, 16/1, 20, 21, 1/1, 1/2, 20/1, 23/1, 23/2, 13/1, 23/1, 23/2, 24/2, 4/1, 4/2, 15, 11/2, 25/1, 25/2, 25/3, 1/3, 22/1, 2/3, 12/1, 10/1, 26, 21/1, 10/1, 10/2, 22/2 of Villages Barthal and Bamnoli, Sector 25, Dwarka, New Delhi by DMICDC Ltd.
- (ii) The total plot area is 89.72 Ha and total built up area is 10,20,000 sqm. Additionally, the total basement area (basement I, II, III & IV) is 10,30,998 sqm. Floor Area Ratio of the proposed project is 113.86.
- (iii) The project will comprise of 13 Buildings blocks (as per AAI approval).
- (iv) The project will comprise exhibition centre, along with construction of 1300 rooms of five star hotels, 800 rooms of four star hotels, 1000 rooms of three star hotel and 500 service apartments. Simultaneously, there will be development of 2,15,000 sqm of office spaces and 1,70,000 sqm of retail spaces. Approx. 2,00,000 sqm of exhibition space and 60,000 sqm of convention centre will also be constructed as a part of ECC.

- (v) The planned components of the project are as presented in Table below:

S. No	Components	Built up Area (sqm)
1	Exhibition Hall	2,00,000
2	Foyer	50,000
3	Convention Centre	60,000
4	Arena (Theme Destination)	50,000
5	Hotels (5 Star)	1,30,000
6	Hotels (4 Star)	60,000
7	Hotels (3 Star)	60,000
8	Office	2,15,000
9	Retail	1,70,000
10	Service Apartments	25,000
Total Built up - Area		10,20,000

- (vi) Height may change for several building blocks while detailed design is carried. Maximum height of the building is 45 m.
- (vii) During construction phase, total water requirement is expected to be 247.5 KLD which will be met by Delhi Jal Board (DJB) through water tankers. During the construction phase, soak pits and septic tanks will be provided for disposal of waste water. Temporary sanitary toilets will be provided during peak labor force.
- (viii) During operational phase, total water demand of the project is expected to be 16 MLD and the same will be met by the 8.5 MLD Recycled Water and rest by DJB Supply. Wastewater generated (9.0 MLD) uses will be treated in two (2) STPs of total capacities of 4.3 MLD and 6.5 MLD respectively. 8.5 MLD of treated wastewater will be recycled (3.8MLD for flushing, 3.2 MLD for cooling Tower make up, 1.0 MLD for gardening and 0.5 MLD additional water available). There will be no discharge into municipal drain.
- (ix) About 75-80 TPD solid waste will be generated in the project during peak season. The biodegradable wastes (41-44 TPD) will be processed in OWC or other organic waste treatment facilities and the non-biodegradable waste generated (33-36 TPD) will be handed over to authorized local vendor.
- (x) During construction phase of the project, no construction labour camps will be set up hence; power requirement will only be limited to operation of construction equipment and machinery. The power will be sourced from nearest grid substation. Diesel Generator sets of capacity / number approximately 250 KVA x 6 Nos., 125 KVA x 9 Nos., and 65 KVA x 12 Nos. will be used for power back-up.
- (xi) Total power requirement during operation phase is 100 MW and will be met from Delhi Transco substation.

Page 2 of 9

- (xii) Rooftop rainwater of buildings will be collected in 20 Nos. RWH tanks of total 9000 KLD capacity for harvesting after filtration.
- (xiii) Parking facility for 26125 four wheelers (26125 equivalent ECS) and 3500 two wheelers (875 equivalent ECS) is proposed to be provided against the requirement of 27000 ECS (according to the norms).
- (xiv) Proposed energy saving measures would save about 25% to 30% of power consumption.
- (xv) ToR was issued to the project vide letter No. 21-102/2017-IA-III dated 02.05.2017.
- (xvi) It is located within 10 km of Rajokri Protected Forest (8.5 km, SE).
- (xvii) There is no court case pending against the project.
- (xviii) Investment/Cost of the project is Rs. 25,367 crores.
- (xix) Direct Employment potential during operation phase is 53,704.
- (xx) Benefits of the project: The project is envisaged to generate double employment, triple industrial output and quadruple exports; Increase in the tourism market in the region. ECC will become the centre place for sponsoring and conducting international and national meetings.

3. The EAC, in its meeting held on 26-28 July, 2017, after detailed deliberations on the proposal, has recommended for grant of Environmental Clearance to the project. As per recommendations of the EAC, the Ministry of Environment, Forest and Climate Change hereby accords Environmental Clearance to the project 'Development of an Exhibition-cum-Convention Centre (ECC) at Dwarka, New Delhi promoted by M/s Delhi Mumbai Industrial Corridor Development Corporation Ltd., under the provisions of the EIA Notification, 2006 and amendments/circulars issued thereon, and subject to the specific and general conditions as under:-

PART A – SPECIFIC CONDITIONS:

I. Construction Phase

- (i) The project proponent shall obtain all necessary clearance/ permission from all relevant agencies including town planning authority before commencement of work. All the construction shall be done in accordance with the local building byelaws.
- (ii) The natural drain system should be maintained for ensuring unrestricted flow of water. No construction shall be allowed to obstruct the natural drainage through the site, on wetland and water bodies. Check dams, bio-swales, landscape, and other sustainable urban drainage systems (SUDS) are allowed for maintaining the drainage pattern and to harvest rain water. Buildings shall be designed to follow the natural topography as much as possible. Minimum cutting and filling should be done.
- (iii) Construction site shall be adequately barricaded before the construction begins. Dust, smoke & other air pollution prevention measures shall be provided for the building as well as the site. These measures shall include

screens for the building under construction, continuous dust/ wind breaking walls all around the site (at least 3 meter height). Plastic/tarpaulin sheet covers shall be provided for vehicles bringing in sand, cement, murram and other construction materials prone to causing dust pollution at the site as well as taking out debris from the site. Sand, murram, loose soil, cement, stored on site shall be covered adequately so as to prevent dust pollution. Wet jet shall be provided for grinding and stone cutting. Unpaved surfaces and loose soil shall be adequately sprinkled with water to suppress dust.

- (iv) All construction and demolition debris shall be stored at the site (and not dumped on the roads or open spaces outside) before they are properly disposed. All demolition and construction waste shall be managed as per the provisions of the Construction and Demolition Waste Rules, 2016. All workers working at the construction site and involved in loading, unloading, carriage of construction material and construction debris or working in any area with dust pollution shall be provided with dust mask.
- (v) Provisions shall be made for the housing of construction labour within the site with all necessary infrastructure and facilities such as fuel for cooking, mobile toilets, mobile STP, safe drinking water, medical health care, creche etc. The housing may be in the form of temporary structures to be removed after the completion of the project.
- (vi) At least 20% of the open spaces as required by the local building bye-laws shall be pervious. Use of Grass pavers, paver blocks with at least 50% opening, landscape etc. would be considered as pervious surface.
- (vii) Compliance with the Energy Conservation Building Code (ECBC) of Bureau of Energy Efficiency shall be ensured. Buildings in the States which have notified their own ECBC, shall comply with the State ECBC. Outdoor and common area lighting shall be LED. Concept of passive solar design that minimize energy consumption in buildings by using design elements, such as building orientation, landscaping, efficient building envelope, appropriate fenestration, increased day lighting design and thermal mass etc. shall be incorporated in the building design. Wall, window, and roof u-values shall be as per ECBC specifications.
- (viii) Follow super ECBC requirement of ECBC 2017 and provide compliance report. Acoustic planning to be provided as it is in air funnel of landing/takeoff of IGI Airport.
- (ix) Use of water saving devices/ fixtures (viz. low flow flushing systems; use of low flow faucets tap aerators etc) for water conservation shall be incorporated in the building plan.
- (x) Installation of dual pipe plumbing for supplying fresh water for drinking, cooking and bathing etc and other for supply of recycled water for flushing, landscape irrigation, car washing, thermal cooling, conditioning etc. shall be done.
- (xi) Separation of grey and black water should be done by the use of dual plumbing system. In case of single stack system separate recirculation lines for flushing by giving dual plumbing system be done.

[Signature]

- (xii) Sewage shall be treated in the STP with tertiary treatment i.e. Ultra Filtration. The treated effluent from STP shall be recycled/re-used for flushing, horticulture & DG cooling. There will be no discharge into municipal drain.
- (xiii) The local bye-law provisions on rain water harvesting should be followed. If local bye-law provision is not available, adequate provision for storage and recharge should be followed as per the Ministry of Urban Development Model Building Byelaws, 2016. As proposed, 20 nos. of rain water harvesting pits of total capacity of 450 m³ shall be provided as per CGWB guidelines.
- (xiv) Separate wet and dry bins must be provided in each unit and at the ground level for facilitating segregation of waste. Solid waste shall be segregated into wet garbage and inert materials. Wet garbage shall be composted in Organic Waste Converter. Adequate space shall be provided for solid waste management within the premises which will include area for segregation, composting. The inert waste from group housing project will be sent to dumping site. As proposed Pneumatic Waste Collection System shall be provided for solid waste management.
- (xv) Solar based electric power shall be provided to each unit for at least two bulbs/light and one fan. As proposed, central lighting and street lighting shall also be based on solar power.
- (xvi) A First Aid Room shall be provided in the project both during construction and operations of the project.
- (xvii) Topsoil should be stripped to a depth of 20 cm from the areas proposed for buildings, roads, paved areas, and external services. It should be stockpiled appropriately in designated areas and reapplied during plantation of the proposed vegetation on site.
- (xviii) Disposal of muck during construction phase shall not create any adverse effect on the neighboring communities and be disposed taking the necessary precautions for general safety and health aspects of people, only in approved sites with the approval of competent authority.
- (xix) The diesel generator sets to be used during construction phase shall be low sulphur diesel type and shall conform to Environmental (Protection) prescribed for air and noise emission standards.
- (xx) Water demand during construction should be reduced by use of pre-mixed concrete, curing agents and other best practices referred.
- (xxi) As proposed, no ground water shall be used during construction/ operation phase of the project.
- (xxii) Approval of the CGWA require before any dewatering for basements.
- (xxiii) The approval of the Competent Authority shall be obtained for structural safety of buildings due to earthquakes, adequacy of firefighting equipment etc as per National Building Code including protection measures from lightning etc.
- (xxiv) Any hazardous waste generated during construction phase, shall be disposed off as per applicable rules and norms with necessary approvals of the State Pollution Control Board.

- (xxv) Vehicles hired for bringing construction material to the site should be in good condition and should have a pollution check certificate and should conform to applicable air and noise emission standards be operated only during non-peak hours.
- (xxvi) Ambient noise levels shall conform to residential standards both during day and night as per Noise Pollution (Control and Regulation) Rules, 2000. Incremental pollution loads on the ambient air and noise quality shall be closely monitored during construction phase. Adequate measures shall be made to reduce ambient air and noise level during construction phase, so as to conform to the stipulated standards by CPCB / SPCB.
- (xxvii) Use of environment friendly materials in bricks, blocks and other construction materials, shall be required for at least 20% of the construction material quantity. These include Fly Ash bricks, hollow bricks, AACs, Fly Ash Lime Gypsum blocks, Compressed earth blocks, and other environment friendly materials. Fly ash should be used as building material in the construction as per the provision of Fly Ash Notification of September, 1999 and amended as on 27th August, 2003 and 25th January, 2016. Ready mixed concrete must be used in building construction.
- (xxviii) An assessment of the cumulative impact of all activities being carried out or proposed to be carried out by the project, shall be made for traffic densities and parking capabilities in a 05 kms. radius from the site. A detailed traffic management and a traffic decongestion plan drawn up through an organisation of repute and specialising in Transport Planning shall be implemented to the satisfaction of the State Urban Development and Transport Departments shall also include the consent of all the concerned implementing agencies.
- (xxix) A comprehensive mobility plan, as per MoUD best practices guidelines (URDPFI), shall be prepared to include motorized, non-motorized, public, and private networks. Road should be designed with due consideration for environment, and safety of users. The road system can be designed with these basic criteria.
- Hierarchy of roads with proper segregation of vehicular and pedestrian traffic.
 - Traffic calming measures
 - Proper design of entry and exit points.
 - Parking norms as per local regulation

II. Operational Phase

- (i) The gaseous emissions from DG set shall be dispersed through adequate stack height as per CPCB standards. Acoustic enclosure shall be provided to the DG sets to mitigate the noise pollution. Low sulphur diesel shall be used. The location of the DG set and exhaust pipe height shall be as per the provisions of the Central Pollution Control Board (CPCB) norms.
- (ii) For indoor air quality the ventilation provisions as per National Building Code of India.

- (iii) Fresh water requirement from DJB Supply Water Supply shall not exceed 7.5 MLD.
- (iv) The quantity of fresh water usage, water recycling and rainwater harvesting shall be measured and recorded to monitor the water balance as projected by the project proponent. The record shall be submitted to the Regional Office, MoEF&CC along with six monthly Monitoring reports.
- (v) The installation of the Sewage Treatment Plant (STP) shall be certified by an independent expert and a report in this regard shall be submitted to the Ministry before the project is commissioned for operation. Periodical monitoring of water quality of treated sewage shall be conducted. Necessary measures should be made to mitigate the odour problem from STP.
- (vi) No sewage or untreated effluent water would be discharged through storm water drains.
- (vii) Sludge from the onsite sewage treatment, including septic tanks, shall be collected, conveyed and disposed as per the Ministry of Urban Development, Central Public Health and Environmental Engineering Organization (CPHEEO) Manual on Sewerage and Sewage Treatment Systems, 2013.
- (viii) The provisions of the Solid Waste Management Rules, 2016, e-Waste (Management) Rules, 2016, the Construction and Demolition Waste Management Rules, 2016 and the Plastics Waste Management Rules, 2016 shall be followed.
- (ix) Solar, wind or other Renewable Energy shall be installed to meet electricity generation equivalent to 1% of the demand load or as per the state level/ local building bye-laws requirement, whichever is higher.
- (x) Solar power shall be used for lighting in the apartment to reduce the power load on grid. Separate electric meter shall be installed for solar power. Solar water heating shall be provided to meet 20% of the hot water demand of the commercial and institutional building or as per the requirement of the local building bye-laws, whichever is higher. Residential buildings are also recommended to meet its hot water demand from solar water heaters, as far as possible.
- (xi) Energy conservation measures like installation of CFLs/ LED for the lighting the area outside the building should be integral part of the project design and should be in place before project commissioning. Used CFLs, TFL and LED shall be properly collected and disposed off/sent for recycling as per the prevailing guidelines/rules of the regulatory authority to avoid mercury contamination.
- (xii) A minimum of 1 tree for every 80 sqm of land should be planted and maintained. The existing trees will be counted for this purpose. Preference should be given to planting native species. Where the trees need to be cut, compensatory plantation in the ratio of 1:3 (i.e. planting of 3 trees for every 1 tree that is cut) shall be done and maintained. As proposed 42.5% area shall be provided for green belt development.
- (xiii) An environmental management plan (EMP) shall be prepared and implemented to ensure compliance with the environmental conditions specified above. A dedicated Environment Monitoring Cell with defined

functions and responsibility shall be put in place to implement the EMP. The environmental cell shall ensure that the environment infrastructure like Sewage Treatment Plant, Landscaping, Rain Water Harvesting, Energy efficiency and conservation, water efficiency and conservation, solid waste management, renewable energy etc. are kept operational and meet the required standards. The environmental cell shall also keep the record of environment monitoring and those related to the environment infrastructure.

- (xiv) The company shall draw up and implement a corporate social Responsibility plan as per the Company's Act of 2013.

PART B - GENERAL CONDITIONS

- (i) A copy of the environmental clearance letter shall also be displayed on the website of the Delhi Pollution Control Committee (DPCC). The EC letter shall also be displayed at the Regional Office, District Industries centre and Collector's Office/ Tehsildar's office for 30 days.
- (ii) The funds earmarked for environmental protection measures shall be kept in separate account and shall not be diverted for other purpose. Year-wise expenditure shall be reported to this Ministry and its concerned Regional Office.
- (iii) Officials from the Regional Office of MoEF&CC, Lucknow who would be monitoring the implementation of environmental safeguards should be given full cooperation, facilities and documents/data by the project proponents during their inspection. A complete set of all the documents submitted to MoEF&CC shall be forwarded to the APCCF, Regional Office of MoEF&CC, Lucknow.
- (iv) In the case of any change(s) in the scope of the project, the project would require a fresh appraisal by this Ministry.
- (v) The Ministry reserves the right to add additional safeguard measures subsequently, if found necessary, and to take action including revoking of the environment clearance under the provisions of the Environmental (Protection) Act, 1986, to ensure effective implementation of the suggested safeguard measures in a time bound and satisfactory manner.
- (vi) All other statutory clearances such as the approvals for storage of diesel from Chief Controller of Explosives, Fire Department, Civil Aviation Department, the Forest Conservation Act, 1980 and the Wildlife (Protection) Act, 1972 etc. shall be obtained, as applicable by project proponents from the respective competent authorities.
- (vii) These stipulations would be enforced among others under the provisions of the Water (Prevention and Control of Pollution) Act, 1974, the Air (Prevention and Control of Pollution) Act 1981, the Environment (Protection) Act, 1986, the Public Liability (Insurance) Act, 1991 and the EIA Notification, 2006.
- (viii) The project proponent shall advertise in at least two local Newspapers widely circulated in the region, one of which shall be in the vernacular language informing that the project has been accorded Environmental Clearance and copies of clearance letters are available with the Delhi Pollution Control Committee and may also be seen on the website of the Ministry of Environment, Forest and Climate Change at <http://www.envfor.nic.in>. The

[Signature]

advertisement shall be made within Seven days from the date of receipt of the Clearance letter and a copy of the same shall be forwarded to the Regional Office of this Ministry at Lucknow.

- (ix) Any appeal against this clearance shall lie with the National Green Tribunal, if preferred, within a period of 30 days as prescribed under Section 16 of the National Green Tribunal Act, 2010.
 - (x) A copy of the clearance letter shall be sent by the proponent to concerned Panchayat, Zilla Parishad/Municipal Corporation, Urban Local Body and the Local NGO, if any, from whom suggestions/ representations, if any, were received while processing the proposal. The clearance letter shall also be put on the website of the company by the proponent.
 - (xi) The proponent shall upload the status of compliance of the stipulated EC conditions, including results of monitored data on their website and shall update the same periodically. It shall simultaneously be sent to the Regional Office of MoEF&CC, the respective Zonal Office of CPCB and the DPCC. The criteria pollutant levels namely; SPM, RSPM, SO₂, NO_x (ambient levels as well as stack emissions) or critical sectoral parameters, indicated for the project shall be monitored and displayed at a convenient location near the main gate of the company in the public domain.
 - (xii) The environmental statement for each financial year ending 31st March in Form-V as is mandated to be submitted by the project proponent to the concerned State Pollution Control Board as prescribed under the Environment (Protection) Rules, 1986, as amended subsequently, shall also be put on the website of the company along with the status of compliance of EC conditions and shall also be sent to the respective Regional Offices of MoEF&CC by e-mail.
4. This issues with the approval of the Competent Authority.

Mr. V Ramesh-Project Director

M/s L & T Construction

International Convention & Expo Centre (IICC)

Project, Sector-25, Dwarka, New Delhi-110078

Report No. AAL ENV-20200227003

Date of Reporting: 02/03/2020

Sample Description:

Ambient Air Quality Monitoring

Name of Project:

Development of India International Convention & Expo Centre (IICC) at Dwarka, New Delhi by India International Convention & Exhibition Centre Ltd.

Sampling & Analysis:

03/02/2020 to 25/02/2020

Sampling Location:

Near Gate No.6 (AAQ-1)

Sampling Done By: AAL

TEST RESULT

S/N	Date of Sampling	Sampling Duration (Hrs.)	Test Parameters				
			PM _{2.5} (µg /m ³)	PM ₁₀ (µg /m ³)	SO ₂ (µg /m ³)	NO ₂ (µg /m ³)	CO (mg /m ³)
1	03/02/2020	24	118.4	210.5	22.3	57.5	0.5
2	10/02/2020	24	102.8	182.5	24.3	52.8	0.5
3	17/02/2020	24	126.3	215.7	21.6	45.8	0.5
4	24/02/2020	24	116.5	167.3	17.9	48.5	<0.2
NAAQ Standards			60	100	80	80	02 (8 Hrs)
Protocol/Method			CPCB Guideline/ AAL/SOP/ENV/002	IS-5182(P-23) 2006	IS-5182 (P-2) 2001	IS-5182(P-6) 2006	IS-5182(P-10) 1999

Note:-PM_{2.5} & PM₁₀ values are reported to be generally on high side (and in excess of corresponding prescribed limits) in line with the same recorded by CPCB's online monitoring system at NSIT, Dwarka. It is, in-general attributable to high degree of vehicular density and exhaust emission leading to build-up of near-surface PM levels helped by low velocity condition etc. Ongoing construction activities, specially the earthworks for road building seem to have added to this build-up.

TEST CERTIFICATE

Page 1 of 1

Issued To:

Mr. V Ramesh-Project Director

M/s L & T Construction

International Convention & Expo Centre (IICC)

Project, Sector-25, Dwarka, New Delhi-110078

Sample Description:

One sample described as Soil, was received.

Name of Project:

Development of India International Convention &

Expo Centre (IICC) at Dwarka, New Delhi by

India International Convention & Exhibition

Centre Ltd.

Date of Sampling:

10/02/2020

Sample Location:

EH-01

Report No. AAL ENV-20200211002

Date of Receiving: 11/02/2020

Date of Starting: 11/02/2020

Date of Completion: 15/02/2020

Date of Reporting: 15/02/2020

Sample Qty. 1 Kgs.

Sample Packing Condition: Polythene Bag

Sample Collected By: AAL

TEST RESULT

S. No.	Test Parameters	Unit	Results	Test Method
1	Colour	-	Yellowish brown	-
2	pH (1:2 Suspension)	-	7.28	IS 2720(P-26)-1987, Reaff-2007
3	Electrical Conductivity	μS/cm	426	IS 2720(P-21)-1977, Reaff-2006
4	Moisture Content	% by mass	7.6	IS 2720(P-2)-2002
5	Exchangeable Sodium (as Na)	Meq/100g	0.35	AAL/SOP/ENV/010-D
6	Exchangeable Potassium (as K)	Meq/100g	0.49	AAL/SOP/ENV/010-D
7	Chloride (as Cl)	% by mass	0.28	AAL/SOP/ENV/010-F
8	Nitrogen (as N)	kg/Ha	56.4	AAL/SOP/ENV/010-C
9	Phosphorus (as P)	kg/Ha	15.5	AAL/SOP/ENV/010-G
10	Organic Matter	% by mass	0.62	IS 2720(P-22)-1972, Reaff:2005
11	Calcium (as Ca)	mg/100g	13.5	AAL/SOP/ENV/010-B
12	Exchangeable Magnesium (as Mg)	Meq/100g	2.7	AAL/SOP/ENV/010-B
13	Cation exchange capacity	Meq/100g	12.9	IS 2720(P-24)-1976, Reaff: 2005
14	Water Holding Capacity	% by mass	35.5	AAL/SOP/ENV/010-H
15	Bulk Density	gm/cc	2.05	-
16	Porosity	%	18.6	-
17	Sodium Absorption Ratio (SAR)	-	0.15	By Calculation
18	Soil Grain Size Analysis/Texture (% by mass)			
(i)	Sand	% by mass	65.0	IS 2720(P-4)-1985, Reaff. 2001
(ii)	Silt	% by mass	6.0	IS 2720(P-4)-1985, Reaff. 2001
(iii)	Clay	% by mass	29.0	IS 2720(P-4)-1985, Reaff. 2001
19	Zinc (as Zn)	mg/kg	20.8	By AAS
20	Iron (as Fe)	mg/kg	2015	By AAS
21	Manganese (as Mn)	mg/kg	305	By AAS
22	Nickel (as Ni)	mg/kg	16.2	By AAS
23	Lead (as Pb)	mg/kg	5.8	By AAS
24	Chromium (as Cr)	mg/kg	26.4	By AAS
25	Copper (as Cu)	mg/kg	13.2	By AAS
26	Texture	-	Sand Clay	
27	Organic Carbon	% by mass	2.28

TEST CERTIFICATE

Page 2 of 2

Report No. AAL WQT-20200211004

Issued To: Mr. V Ramesh-Project Director
M/s L & T Construction
International Convention & Expo Centre (IICC)
Project, Sector-25, Dwarka, New Delhi-110078

Date of Receiving: 11/02/2020
Date of Starting: 11/02/2020
Date of Completion: 15/02/2020
Date of Reporting: 15/02/2020

Sample Description: One sample described as Municipal Supply Water, was received.
Name of Project: Development of India International Convention & Expo Centre (IICC) at Dwarka, New Delhi by India International Convention & Exhibition Centre Ltd.

Sample Quantity: 2 Litre

Date of Sampling: 10/02/2020

Sample Packing Condition: Plastic Bottle

Sample Location: Labour Colony

Sample Collected By: AAL

TEST RESULTS

S. No.	Test parameters	Unit	Results	Requirements As per IS: 10500-2012		Testing Method	Conformity
				Desirable Limit	Permissible Limit

Issued To: Mr. V Ramesh-Project Director
M/s L & T Construction
International Convention & Expo Centre (IICC)
Project, Sector-25, Dwarka, New Delhi-110078

Sample Description: D G Noise

Name of Project: Development of India International Convention & Expo Centre (IICC) at Dwarka, New Delhi by India International Convention & Exhibition Centre Ltd.

Capacity of DG Set: 600 KVA – Near Main Batching Plant

Date of Monitoring: 26/02/2020

Report No. AAL ENV-20200227030

Date of Receiving: 27/02/2020

Date of Starting: 27/02/2020

Date of Completion: 02/03/2020

Date of Reporting: 02/03/2020

Sampling Method: By Noise Meter

Sampling Done By: AAL

TEST RESULT

S. No.	Location	Unit	Result	Permissible Limit dB(A) Leq.
1.	Noise level when canopy door is open.	dB(A) Leq.	101.7	-
2.	Noise level when canopy door is closed at a distance of 1.0 meter.	dB(A) Leq.	74.5	-
	Insertion Loss	dB(A) Leq.	27.2	25 Min.

****End of Report****

TEST RESULT

S/N	Date of Sampling	Sampling Duration (Hrs.)	Test Parameters				
			PM _{2.5} (µg /m ³)	PM ₁₀ (µg /m ³)	SO ₂ (µg /m ³)	NO ₂ (µg /m ³)	CO (mg /m ³)
1	03/02/2020	24	85.3	156.7	16.3	38.4	<0.2
2	10/02/2020	24	97.4	160.5	15.3	42.5	<0.2
3	17/02/2020	24	115.2	172.8	19.2	46.3	0.5
4	24/02/2020	24	101.3	178.2	18.4	39.2	0.5
NAAQ Standards			60	100	80	80	02 (8 Hrs)
Protocol/Method			CPCB Guideline/ AAL/SOP/ENV/002	IS-5182(P-23) 2006	IS-5182 (P-2) 2001	IS-5182(P-6) 2006	IS-5182(P-10) 1999

Note:-PM_{2.5} & PM₁₀ values are reported to be generally on high side (and in excess of corresponding prescribed limits) in line with the same recorded by CPCB's online monitoring system at NSIT, Dwarka. It is, in-general attributable to high degree of vehicular density and exhaust emission leading to build-up of near-surface PM levels helped by low velocity condition etc. Ongoing construction activities, specially the earthworks for road building seem to have added to this build-up.

¹[FORM – V]

(See rule 14)

Environmental Statement for the financial year ending the 31st March, 2019

PART – A

- (i) Name and address of the owner/occupier of the industry operation or process.

V Ramesh
Project Director, Larsen & Toubro Construction
India International Convention & Exhibition Centre Project (Phase 1)
IICC Project site office
Sector – 25, Dwarka
New Delhi - 110 078

- (ii) Industry category Primary ----(STC code) Secondary.----- (SIC Code)

Orange Category - Group NA

- (iii) Production Capacity.----Units----

Not applicable

- (iv) Year of establishment

2018

- (v) Date of the last environmental statement submitted

15 May 2018

PART – B

Water and River Material Consumption

- (1) Water consumption m³/d:

Process 50 KL/DAY
Cooling *Not applicable*
Domestic 400 KL/day

Name of Products	Process water consumption per unit of product output.	
	During the previous financial Year	During the Current financial Year
	(1)	(2)
(1) Concrete	NIL	0.15 KL/Cubic Meter of Concrete
(2)	<i>Not applicable</i>	<i>Not applicable</i>

185

(3)

Not applicable

Not applicable

1. Substituted by Rule 2 (b) of the Environment (Protection) Amendment Rules, 1993 notified vide G.S.R 3'6 (E) dated 22.04.1993.

ii) **Raw Material Consumption**

*Name of raw materials	Name of products	Consumption of raw material per Unit of output	
		during the previous financial year	during the current financial year
Cement	Concrete	NIL	350 Kg/Cubic meter
Aggregate	Concrete	NIL	1200 Kg/ cubic meter
Sand	Concrete	NIL	700 Kg/Cubic meter
Ad-Mixture	Concrete	NIL	15 Kg/cubic meter

*Industry may use codes if disclosing details of raw material would violate contractual obligations, otherwise all industries have to name the raw materials used.

PART – C

Pollution discharged to environment/unit of output (Parameter as specified in the consent issued)

1) Pollutants	Quantity of pollutants discharged (mass/day)	Concentrations of pollutants in discharges (mass/volume)	Percentage of variation from prescribed standards with reasons
a) Water	Not applicable	Zero Discharge	
b) Air	Not Applicable	Within prescribed limits (DG emission)	Within prescribed limits

*Ambient Air & DG set Monitoring reports are attached.

PART – D

Hazardous Wastes

(as specified under Hazardous Waste Management and Handling Rules, 1989)

186

Hazardous Waste	Total Quantity (Kg.)	
	During the previous Financial Year	During the current Financial year
USED OIL	NIL	2200 Litre
Cotton Soak	NIL	150 KG
Filter	NIL	50 KG

- a) From process
- Used Oil (Schedule- 1 category 5.1)- 2200 Litre
 - Cotton Soak and OIL filter- 50 Kg+ 150 Kg

- b) From pollution control facilities.
Not applicable

PART – E Solid Wastes

	Total Quantity	
	during the previous financial year	during the current financial year
	<i>Not applicable</i>	

- (a) From process
- Wood waste (Ply) & Packaging waste: **40,000 KG**
 - C&D Waste: 520 M³
- (b) Form pollution control facility *Not applicable*
- (c) (1) Quantity recycled or re-utilized within the unit *Not applicable*
(2) Sold *Not applicable*
(3) Disposed *Not applicable*

PART – F

Please specify the characterizations (in terms of composition of quantum) of hazardous as well as solid wastes and indicate disposal practice adopted for both these categories of wastes.

- Hazardous waste is stored at site as per Hazardous waste management handling and transboundary Movement guideline and Honorable Supreme Court guidelines and will be sold to MoEF & CPCB-approved authorized recycler and re-user for disposal.
- Solid waste (C&D waste) is stacked at site and will be sent to crusher plant before completion of project. As the quantity of C&D waste is very less (520 M³) for the referred period, the same has been utilized in-house (primarily in enabling works, for e.g., internal road leveling, pothole filling, safety barricading, temporary

structure's concreting in beams, foundation etc.).

- *Packaging waste and wood waste sold to recycler and reuser on regular basis from site.*

PART – G

Impact of the pollution abatement measures taken on conservation of natural resources and on the cost of production.

- All Water requirements of project is fulfilled by purchasing of water. No Bore is installed at site to meet construction water requirements.

PART – H

Additional measures/investment proposal for environmental protection including abatement of pollution, prevention of pollution.

- *Acoustic DG sets*
- *Project fencing height increased*

PART – I

Any other particulars for improving the quality of the environment.

- *Dust separation by water sprinkling*
- *Wheel washing facility*

Larsen & Toubro Limited

L&T House, Ballard Estate,
Narottam Morarjee Marg,
Mumbai – 400001 India

Sub: Detailed design, construction, testing and commissioning of India International Convention & Expo Centre (IICC) in Sector-25, Dwarka, New Delhi on EPC Basis – letter of award – reg.

This is with reference to your proposal dated December 08, 2017 for the selection of contractor for the detailed design, construction, testing and commissioning of India International Convention & Expo Centre (IICC) in Sector-25, Dwarka, New Delhi on EPC Basis.

In this regard, we are pleased to inform you that the competent authority has accepted your proposal for the quoted amount of INR 2791,00,00,000/- (Rupees Two Thousand Seven Hundred Ninety One Crore only) including taxes.

Accordingly, you are requested to ensure the following within stipulated time:

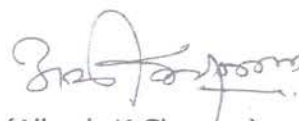

1. To sign and return the duplicate copy of the Letter of Award (LOA) in acknowledgement thereof, within 3 (three) days of the receipt of the Letter of Award (LOA) as per clause 3.7.3 of RFQ cum RFP document;
2. To deliver the Employer i.e. India International Convention and Exhibition Centre Limited a legal opinion from your legal counsel with respect to your authority to enter into an EPC Agreement and the enforceability of the provisions thereof, within 10 (ten) days of the date of receipt of this LOA;
3. The contractor shall submit a site organizational chart and resume including details of experience of the project-in-charge and other staff proposed to be deputed within 07 (seven) days of receipt of this LOA;

4. To execute the EPC Agreement with India International Convention and Exhibition Centre Limited within 40 (forty) days of the date of receipt of LOA;
5. The Contractor shall provide to the Employer within 30 (thirty) days of the date of this agreement, an irrevocable and unconditional guarantee from a nationalized or commercial scheduled bank in the form set forth in Annex-I of Schedule-G (the "Performance Security") for an amount equal to 5% (five percent) of the Contract Price. The performance Security shall be valid until 60(sixty) days after the Defects Liability Period as per article 7.1.1 of Contract Agreement;
6. The contractor should submit all insurances and documents required as per terms and conditions set forth in the RfQ cum RfP document within 30 (thirty) days from the LOA.

You are required to comply with all the terms and conditions set forth in the RfQ cum RfP documents. In case of any default on your part, you shall be liable for action as stated in the RfQ cum RfP document.

Yours sincerely,

(Alkesh K Sharma)
Director

g) DMICDC Letter dated 20th Feb 2018 – Approval of Proof Consultants
h) LT-B&F/CBA-PS/IICC/AECOM/2018/0049 dated 05th Feb 18
i) LT-B&F/CBA-PS/IICC/AECOM/2018/0012 dated 10th Jan 18
c) Clause 1.4, 10.2.4 h.

Sub: Structure Stability Certificate –Reg.

Dear Sir,

This has reference to the subject and referred correspondences.

In this regard, we would like to submit as under:

- a. Contract agreement provision 10.2.4 h reproduced as under;
"The contractor shall be responsible for obtaining the approval of proof consultant, PEAC, Employer/employers Engineer on Drawings and details before commencement of respective works including structural design duly vetted by I.I.T or other Institutes of National repute including obtaining structural safety Certificate from the institute of national repute."
We have submitted the same at the time of proposal and reason of selection of IIT and nomination for approval, the same is intimated vide reference (i) and confirmed vide reference (c).
- b. The contract agreement requirement under above quoted provision is structural design vetting by IIT including obtaining structural stability certificate. And in compliance with the above mentioned contract provision

Regional Office: 12/4, Delhi Mathura Road, Near Sarai Khawaja Chowk, Faridabad - 121003

LARSEN & TOUBRO

Buildings and Factories IC

India International Convention and Exhibition Centre, Sector-25, Dwarka, New Delhi-110078

we are submitting herewith the structural stability certificate from IIT (enclosed).

- c. However we would like to clarify that we are also in compliance of the provision referred Structural Technical Specification section 3: Concrete specification under sub section 3.10 Scope of works " *A third party check and design stability certificate from Indian Institute of Technology for all the buildings and basement is compulsory.*"
- d. Therefore, we reiterate our position that there is no provision under the Contract that would require two separate parties to perform the duties of proof consultant and structural stability certifier.
- e. We are in complete compliance with the contractual provisions and agree to disagree with Employer's Engineer's suggestions in this regard.

Hence we request you to consider our submission and do the needful.

Thanking you and assuring you of our best services, at all time.

Yours faithfully,

FOR LARSEN AND TOUBRO LIMITED

V. Ramesh

(Project Director)

STRUCTURAL STABILITY CERTIFICATE

This is to certify that the building, Design and Construction of India International Convention & Expo Centre comprises of Exhibition Hall & Foyer-1, Exhibition Hall & Foyer-2, Exhibition Hall-3, Convention Centre, CC Parking, DG Yard & Elec. Substations, Fire Station, Master Plan & External Works, Service Gallery and Vehicular Access Tunnels in Sector 25, Dwarka, New Delhi, India is performed by Larsen & Toubro, Construction division, EDRC.

With reference to above subject, we have received the relevant documents (Such as Soil report, Structural design basis report, Architectural drawings, Structural drawings, ETABS model with load calculations etc.,) to analyse, review and approve the structures for India International Convention & Expo Centre mentioned above.

We hereby confirm that we have checked the Structural Analysis & Design at all the stages of work and found that:

1. The Structural Analysis & Design is in conformity with the provisions of relevant Indian Standards and National Building Code of India 2016
2. The building superstructure, substructure and the foundations have been designed for the appropriate seismic loads, all dead loads and live loads, wind loads etc. conforming to Bureau of Indian standards.
3. The structural Analysis and Designs have been carried out conforming to IS 1893-2016, IS 13920-2016, IS 875-1987 (Part 1, 2, 4 & 5), IS 875-2015 (Part 3) and as per IS 456-2000 and IS800:2007

All Buildings mentioned above are found to be conforming to Bureau of Indian Standards.

With warm regards,

Yours Sincerely,

(S. Arul Jayachandran)
